### **Dimensional Emerging Markets Value Fund**

December 2023

Dear Shareholder,

Dimensional has been working with financial professionals for more than 40 years to deliver better results for investors. Our commitment to understanding financial professionals' needs and building solutions informed by empirical research and ongoing innovation has helped to transform the industry toward more transparent, data-driven investments.

We use the information contained in market prices to seek better returns and manage risk. Trusting markets means we take a less subjective, more systematic approach to investing—an approach we can implement consistently around the world and across asset classes. Investor needs, economic theory, and robust data guide our investment process, from conducting research, to designing portfolios, to considering when and how to trade.

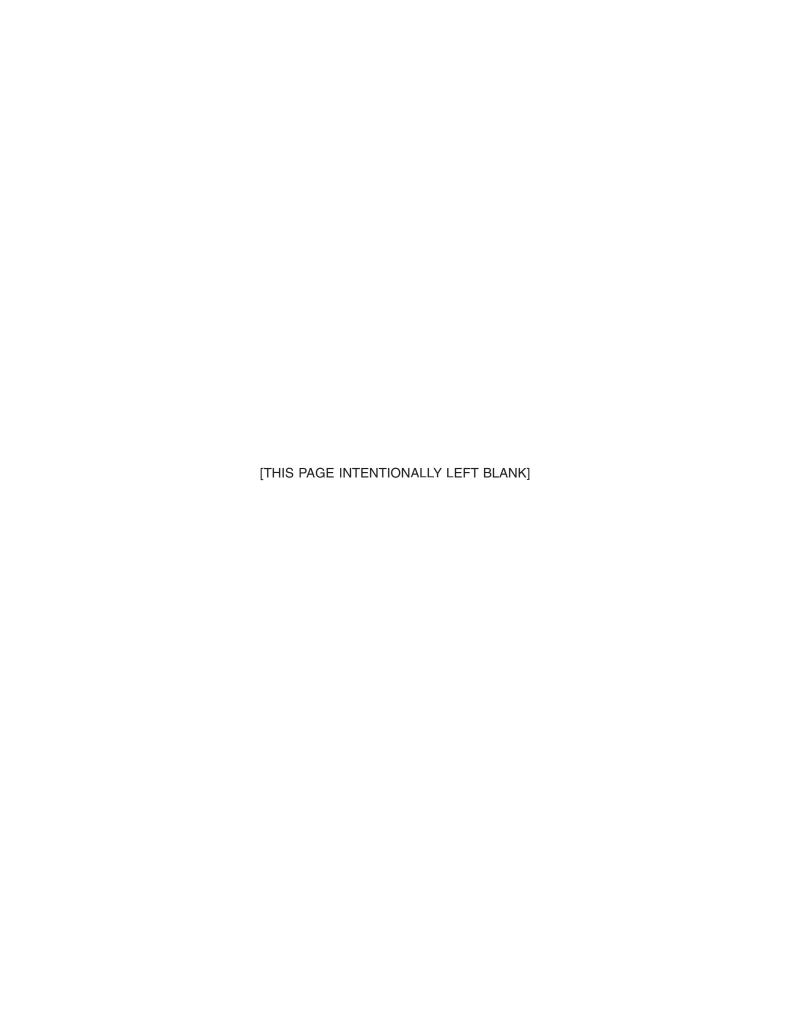

What started with the launch of our first fund in 1981 still holds true today. Every dollar invested is backed by financial science and Dimensional's commitment to providing an outstanding investment experience. On behalf of everyone at Dimensional, we thank you for entrusting us with your investments.

Sincerely,

David P. Butler co-chief executive officer

Dr. 18.3.4.

Gerard O'Reilly CO-CHIEF EXECUTIVE OFFICER and CHIEF INVESTMENT OFFICER

### **Financial Highlights**

**	The Net Investment Income (Loss) per share and the ratio of Net Investment Income to Average Net Assets includes the current year effect of an estimation related to a one time distribution from a real estate investment trust. Net Investment Income (Loss) per share, Net Gain (Loss) per share and the ratio of Net Investment Income to Average Net Assets for the DFA Global Real Estate Securities Portfolio would have been \$0.39,
	\$2.11 and 3.39%, respectively had the current year effect of this estimation not been considered.
(A)	Computed using average shares outstanding.
(B)	Represents the combined ratios for the respective Portfolio and its respective pro-rata share of its Master Fund(s) and/or Underlying Fund(s).

(C) Non-Annualized(D) Annualized

(E) Because of commencement of operations and related preliminary transaction costs,

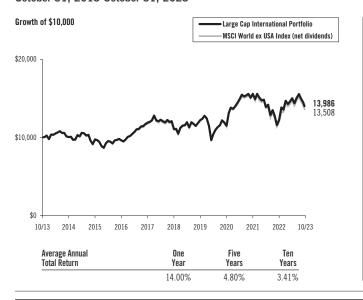

these ratios are not necessarily indicative of future ratios.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

### **International Equity Market Review**

### 12 Months Ended October 31, 2023

Performance of non-U.S. developed markets was positive for the period outperforming the US and emerging markets. As measured by the MSCI World ex USA indices, small-cap stocks underperformed large-cap stocks, and mid-cap stocks underperformed large-cap stocks but outperformed small-cap stocks. Value stocks outperformed growth stocks as measured by the MSCI World ex USA indices.

#### Total Return for 12 Months Ended October 31, 2023

	Return in U.S. Dollars
MSCI World ex USA Index	12.56%
MSCI World ex USA Mid Cap Index (a subset of the large-cap universe)	9.62%
MSCI World ex USA Small Cap Index	5.66%
MSCI World ex USA Value Index	15.70%
MSCI World ex USA Growth Index	9.49%

For the 12 months ended October 31, 2023, the U.S. dollar appreciated against more than half of non-U.S. developed markets currencies. Overall, currency movements had a positive impact on the U.S. dollar-denominated returns of developed markets.

### Total Return for 12 Months Ended October 31, 2023

Ten Largest Foreign Developed Markets by Market Cap	Local Return	Return in U.S. Dollars
Japan	19.00%	16.79%
United Kingdom	7.11%	12.88%
Canada	0.51%	-1.24%
France	10.52%	18.19%
Switzerland	-2.37%	7.36%
Australia	4.89%	3.85%
Germany	10.73%	18.42%
Netherlands	11.07%	18.56%
Sweden	7.32%	6.14%
Denmark	31.92%	40.72%

Emerging markets had positive performance for the period and outperformed U.S. markets while underperforming non-U.S. developed markets. As measured by the MSCI Emerging Markets indices, small-cap stocks outperformed large-cap stocks and mid-cap stocks. Value stocks outperformed growth stocks as measured by the MSCI Emerging Markets indices.

#### Total Return for 12 Months Ended October 31, 2023

Poture in LLC Dollars

	keturn in O.S. Dollars
MSCI Emerging Markets Index	10.80%
MSCI Emerging Markets Mid Cap Index (a subset of the large-cap universe)	10.42%
MSCI Emerging Markets Small Cap Index	17.20%
MSCI Emerging Markets Value Index	13.43%
MSCI Emerging Markets Growth Index	8.33%

For the 12 months ended October 31, 2023, the U.S. dollar appreciated against more than half of emerging markets currencies. Overall, currency movements had a positive impact on the U.S. dollar denominated returns of emerging markets.

#### Total Return for 12 Months Ended October 31, 2023

Ten Largest Emerging Markets by Market Cap	Local Return	Return in U.S.
<u>Dollars</u>		
China	20.83%	21.12%
India	4.76%	4.16%
Taiwan	27.06%	26.22%
Korea	2.72%	8.34%
Brazil	-1.84%	2.14%
Saudi Arabia	-11.52%	-11.38%
South Africa	3.73%	1.69%
Mexico	0.13%	10.10%
Indonesia	-5.51%	-7.22%
Thailand	-9.60%	-4.28%

For Portfolios investing in non-U.S. equities traded outside of the U.S. market time zone, differences in the valuation timing and methodology between a Portfolio and its benchmark index may impact relative performance over the referenced period. The Portfolios price foreign exchange rates at the closing of the U.S. market, while their benchmark indices use rates at 4 p.m. London time. The Portfolios also may use fair value pricing to price certain portfolio securities at the closing of the U.S. market, while benchmark indices may use local market closing prices. For the one-year period ended October 31, 2023, these differences generally contributed positively to non-US developed markets Portfolios' relative performance and were not material to emerging markets Portfolios' relative performance.

### **Large Cap International Portfolio**

The Large Cap International Portfolio invests in developed ex U.S. large company stocks. The Portfolio generally excludes real estate investment trusts (REITs). The investment strategy is process driven, emphasizing broad diversification with increased exposure to stocks with smaller total market

capitalizations, lower relative price (value) stocks, and higher profitability stocks within the large-cap segment of developed ex U.S. markets. As of October 31, 2023, the Portfolio held approximately 1,270 securities in 22 eligible developed markets. Average cash exposure throughout the year was less than 1% of the Portfolio's assets.

For the 12 months ended October 31, 2023, total returns were 14.00% for the Portfolio and 12.56% for the MSCI World ex USA Index (net dividends), the Portfolio's benchmark. The Portfolio's emphasis on value stocks contributed positively to performance relative to the benchmark, as value stocks outperformed growth stocks in developed ex U.S. markets.

### **International Core Equity Portfolio**

The International Core Equity Portfolio invests in a broadly diversified group of stocks in developed ex U.S. markets, with increased exposure to stocks with smaller market capitalization, lower relative price (value), and higher profitability. The Portfolio generally excludes real estate investment trusts (REITs). The investment strategy is process driven, emphasizing broad diversification. As of October 31, 2023, the Portfolio held approximately 5,270 securities in 22 eligible developed markets. Average cash exposure throughout the year was less than 1% of the Portfolio's assets.

For the 12 months ended October 31, 2023, total returns were 13.84% for the Portfolio and 12.56% for the MSCI World ex USA Index (net dividends), the Portfolio's benchmark. With value stocks outperforming growth stocks, the Portfolio's greater emphasis on value stocks contributed positively to performance relative to the benchmark.

### **Global Small Company Portfolio**

The Global Small Company Portfolio is designed to capture the returns of global small company stocks by purchasing shares of seven funds (which shall be collectively referred to below as the "Underlying Funds") managed by Dimensional that individually invest in Canada, the United States, the United Kingdom, Europe (including Israel and excluding the U.K.), Japan, the Asia Pacific region (ex-Japan), and emerging markets. The Underlying Funds generally exclude stocks with the lowest profitability and highest relative price, certain companies with high asset growth, and real estate investment trusts (REITs). The investment strategy is process driven, emphasizing broad diversification. As of October 31, 2023, the Underlying Funds collectively held approximately 11,010 securities in 44 eligible developed and emerging markets.

For the 12 months ended October 31, 2023, total returns were 2.05% for the Portfolio and 1.27% for the MSCI All Country World Small Cap Index (net dividends), the Portfolio's benchmark. The Underlying Funds' exclusion of stocks with the lowest profitability and highest relative price contributed positively to performance relative to the benchmark, as those stocks underperformed. The Underlying Funds' exclusion of REITs also contributed positively to performance relative to the benchmark, as REITs generally underperformed.

### **International Small Company Portfolio**

The International Small Company Portfolio invests in developed ex U.S. small company stocks by purchasing shares of five Master Funds managed by Dimensional that invest individually in Canada, the United Kingdom, Europe (including Israel and excluding the U.K.), Japan, and the Asia Pacific region (ex-Japan). The Master Funds generally exclude stocks with the lowest profitability and highest relative price, certain companies with high asset growth, and real estate investment trusts (REITs). The

investment strategy is process driven, emphasizing broad diversification. As of October 31, 2023, the Master Funds collectively held approximately 4,270 securities in 22 eligible developed markets. Average cash exposure throughout the year was less than 1% of the Portfolio's assets.

For the 12 months ended October 31, 2023, total returns were 10.58% for the Portfolio and 5.66% for the MSCI World ex USA Small Cap Index (net dividends), the Portfolio's benchmark. The Master Funds' exclusion of stocks with the lowest profitability and highest relative price contributed positively to performance relative to the benchmark, as these stocks underperformed. The Master Funds' exclusion of REITs also contributed positively to performance relative to the benchmark, as REITs generally underperformed.

### **Japanese Small Company Portfolio**

The Japanese Small Company Portfolio invests in Japanese small company stocks by purchasing shares of the Japanese Small Company Series, a Master Fund managed by Dimensional that invests in such securities. The Master Fund generally excludes stocks with the lowest profitability and highest relative price, certain companies with high asset growth, and real estate investment trusts (REITs). The investment strategy is process driven, emphasizing broad diversification. As of October 31, 2023, the Master Fund held approximately 1,700 securities. Average cash exposure throughout the year was less than 1% of the Master Fund's assets.

For the 12 months ended October 31, 2023, total returns were 18.33% for the Portfolio and 13.35% for the MSCI Japan Small Cap Index (net dividends), the Portfolio's benchmark. The Master Fund's exclusion of stocks with the lowest profitability and highest relative price also contributed positively to performance relative to the benchmark, as those stocks underperformed. The Master Funds' exclusion of REITs also contributed positively to performance relative to the benchmark, as REITs generally underperformed.

#### **Asia Pacific Small Company Portfolio**

The Asia Pacific Small Company Portfolio invests in small company stocks in Australia, Hong Kong, New Zealand, and Singapore by purchasing shares of the Asia Pacific Small Company Series, a Master Fund managed by Dimensional that invests in such securities. The Master Fund generally excludes stocks with the lowest profitability and highest relative price, certain companies with high asset growth, and real estate investment trusts (REITs). The investment strategy is process driven, emphasizing broad diversification. As of October 31, 2023, the Master Fund held approximately 790 securities in 4 eligible countries. Average cash exposure throughout the year was less than 1% of the Master Fund's assets.

For the 12 months ended October 31, 2023, total returns were 0.37% for the Portfolio and -2.12% for the MSCI Pacific ex Japan Small Cap Index (net dividends), the Portfolio's benchmark. The Master Fund's greater emphasis on stocks with smaller market capitalizations contributed positively to performance relative to the benchmark, as these stocks outperformed. The Master Fund's exclusion of stocks with the lowest profitability and highest relative price also contributed positively to relative performance, as those securities underperformed. Additionally, the Master Funds' exclusion of REITs contributed positively to performance relative to the benchmark, as REITs generally underperformed.

### **United Kingdom Small Company Portfolio**

The United Kingdom Small Company Portfolio invests in small company stocks in the U.K. by purchasing shares of The United Kingdom Small Company Series, a Master Fund managed by Dimensional that invests in such securities. The Master Fund generally excludes stocks with the lowest profitability and highest relative price, certain companies with high asset growth, and real estate investment trusts (REITs). The investment strategy is process driven, emphasizing broad diversification. As of October 31, 2023, the Master Fund held approximately 310 securities. Average cash exposure throughout the year was less than 1% of the Master Fund's assets.

For the 12 months ended October 31, 2023, total returns were 8.78% for the Portfolio and 5.16% for the MSCI United Kingdom Small Cap Index (net dividends), the Portfolio's benchmark. The Master Fund's exclusion of stocks with the lowest profitability and highest relative price contributed positively to relative performance, as did the Master Fund's exclusion of stocks with high asset growth, as those securities underperformed. The Master Funds' exclusion of REITs also contributed positively to performance relative to the benchmark, as REITs generally underperformed.

### **Continental Small Company Portfolio**

The Continental Small Company Portfolio invests in small company stocks in the developed markets of Europe (excluding the U.K.) and Israel by purchasing shares of the Continental Small Company Series, a Master Fund managed by Dimensional that invests in such securities. The Master Fund generally excludes stocks with the lowest profitability and highest relative price, certain companies with high asset growth, and real estate investment trusts (REITs). The investment strategy is process driven, emphasizing broad diversification. As of October 31, 2023, the Master Fund held approximately 1,140 securities in 15 eligible countries. Average cash exposure throughout the year was less than 1% of the Portfolio's assets.

For the 12 months ended October 31, 2023, total returns were 11.43% for the Portfolio and 8.05% for the MSCI Europe ex U.K. Small Cap Index (net dividends), the Portfolio's benchmark. Differences in size definitions between the Master Fund and the benchmark led to weight differences between countries, which contributed positively to performance relative to the benchmark. The Master Fund's exclusion of stocks with the lowest profitability and highest relative price also contributed positively to relative performance, as did the Master Fund's exclusion of stocks with high asset growth, as those securities underperformed for the year. Additionally, the Master Funds' exclusion of REITs also contributed positively to performance relative to the benchmark, as REITs generally underperformed.

### **Global Real Estate Market Review**

### 12 Months Ended October 31, 2023

Publicly traded global real estate investment trusts (REITs) had negative returns for the period. Global REITs underperformed U.S. equities, developed non-U.S. equities, and emerging markets equities. The U.S. REIT market, the world's largest, had negative performance for the period and underperformed non-U.S. REITs. Among non-U.S. REIT markets, Mexico, France, and Malaysia were among the strongest performers, while Israel, Italy, and Thailand lagged. At the REIT industry level, data center REITs and health care REITs generally outperformed, while self-storage and tower REITs generally underperformed.

### **Total Return for 12 Months Ended October 31, 2023**

Dow Jones U.S. Select REIT Index <sup>SM</sup>	-6.25%
S&P Global ex U.S. REIT Index	-5.26%
S&P Global REIT Index	-6.53%

Source: Returns are of Standard and Poor's (S&P) indices net of foreign withholding taxes on dividends. Copyright S&P, 2023. All rights reserved. Dow Jones and S&P have different REIT eligibility criteria which can result in performance differences across different indices representing the same region.

For Portfolios investing in non-U.S. REITs and REIT-like securities traded outside of the U.S. market time zone, differences in the valuation timing and methodology between a Portfolio and its benchmark index may impact relative performance over the referenced period. The Portfolios price foreign exchange rates at the closing of the U.S. market, while their benchmark indices use rates at 4 p.m. London time. The Portfolios also may use fair value pricing to price certain portfolio securities at the closing of the U.S. market, while benchmark indices may use local market closing prices. For the one-year period ended October 31, 2023, these differences generally contributed positively to the Portfolios' relative performance.

#### **DFA International Real Estate Securities Portfolio**

The DFA International Real Estate Securities Portfolio invests in a broadly diversified portfolio of real estate securities in developed ex U.S. and emerging markets. As of October 31, 2023, the Portfolio held approximately 320 securities in 26 eligible developed ex U.S. and emerging markets. Average cash exposure throughout the year was less than 1% of the Portfolio's assets.

For the 12 months ended October 31, 2023, total returns were -3.55% for the Portfolio and -5.26% for the S&P Global ex US REIT Index (net dividends), the Portfolio's benchmark. Withholding tax rate differences between the Portfolio and the benchmark contributed positively to performance relative to the benchmark as the Portfolio's actual tax rate was lower than the assumed tax rates of the benchmark.

#### **DFA Global Real Estate Securities Portfolio**

The DFA Global Real Estate Securities Portfolio invests in a broadly diversified group of real estate securities in domestic and international markets, including emerging markets. During the period covered by this report, the Portfolio's investments included the DFA International Real Estate Securities Portfolio, the DFA Real Estate Securities Portfolio, and individual securities. As of October 31, 2023, the Portfolio held, either directly or through the underlying portfolios, approximately 450 securities in 27 eligible developed and emerging markets. Average cash exposure throughout the year was less than 1% of the Portfolio's assets.

For the 12 months ended October 31, 2023, total returns were -6.27% for the Portfolio and -6.53% for the S&P Global REIT Index (net dividends), the Portfolio's benchmark. Differences in REIT eligibility between the Portfolio and the benchmark detracted from performance relative to the benchmark, most notably among tower REITs. The Portfolio includes tower REITs, which are not held by the benchmark, and these securities generally underperformed. Conversely, withholding tax rate differences between the Portfolio and the benchmark contributed positively to performance relative to

the benchmark as the Portfolio's actual tax rate was lower than the assumed tax rates of the benchmark.

### **International Equity Market Review**

### 12 Months Ended October 31, 2023

Performance of non-U.S. developed markets was positive for the period outperforming the US and emerging markets. As measured by the MSCI World ex USA indices, small-cap stocks underperformed large-cap stocks, and mid-cap stocks underperformed large-cap stocks but outperformed small-cap stocks. Value stocks outperformed growth stocks as measured by the MSCI World ex USA indices.

### Total Return for 12 Months Ended October 31, 2023

	Return in U.S. Dollars
MSCI World ex USA Index	12.56%
MSCI World ex USA Mid Cap Index (a subset of the large-cap universe)	9.62%
MSCI World ex USA Small Cap Index	5.66%
MSCI World ex USA Value Index	15.70%
MSCI World ex USA Growth Index	9.49%

For the 12 months ended October 31, 2023, the U.S. dollar appreciated against more than half of non-U.S. developed markets currencies. Overall, currency movements had a positive impact on the U.S. dollar-denominated returns of developed markets.

### Total Return for 12 Months Ended October 31, 2023

Ten Largest Foreign Developed Markets by Market Cap	Local Return	Return in U.S. Dollars
Japan	19.00%	16.79%
United Kingdom	7.11%	12.88%
Canada	0.51%	-1.24%
France	10.52%	18.19%
Switzerland	-2.37%	7.36%
Australia	4.89%	3.85%
Germany	10.73%	18.42%
Netherlands	11.07%	18.56%
Sweden	7.32%	6.14%
Denmark	31.92%	40.72%

For Portfolios investing in non-U.S. equities traded outside of the U.S. market time zone, differences in the valuation timing and methodology between a Portfolio and its benchmark index may impact relative performance over the referenced period. The Portfolios price foreign exchange rates at the closing of the U.S. market, while their benchmark indices use rates at 4 p.m. London time. The Portfolios also may use fair value pricing to price certain portfolio securities at the closing of the U.S. market, while benchmark indices may use local market closing prices. For the one-year period ended October 31, 2023, these differences generally contributed positively to non-US developed markets Portfolios' relative performance and were not material to emerging markets Portfolios' relative performance.

### **DFA International Small Cap Value Portfolio**

The DFA International Small Cap Value Portfolio invests in small-cap value stocks in developed ex U.S. markets, with an emphasis on those with higher profitability. The Portfolio generally excludes certain companies with high asset growth, real estate investment trusts (REITs), and highly regulated utilities. The investment strategy is process driven, emphasizing broad diversification. As of October 31, 2023, the Portfolio held approximately 1,930 securities in 22 eligible developed markets. Average cash exposure throughout the year was less than 1% of the Portfolio's assets.

For the 12 months ended October 31, 2023, total returns were 17.80% for the Portfolio and 10.02% for the MSCI World ex USA Small Value Index (net dividends), the Portfolio's benchmark. With value stocks outperforming growth stocks, the Portfolio's focus on value stocks contributed positively to performance relative to the benchmark. The Portfolio's exclusion of REITs also contributed positively to relative performance, as REITs generally underperformed.

### **International Vector Equity Portfolio**

The International Vector Equity Portfolio invests in a broadly diversified group of stocks in developed ex U.S. markets, with increased exposure to stocks with smaller market capitalization, lower relative price (value), and higher profitability. The Portfolio's increased exposure to small capitalization and value stocks may be achieved by decreasing the allocation to or excluding the largest high relative price (growth) stocks in developed ex U.S. markets. Additionally, the Portfolio generally excludes real estate investment trusts (REITs). The investment strategy is process driven, emphasizing broad diversification. As of October 31, 2023, the Portfolio held approximately 4,830 securities in 22 eligible developed markets. Average cash exposure throughout the year was less than 1% of the Portfolio's assets.

For the 12 months ended October 31, 2023, total returns were 14.34% for the Portfolio and 12.56% for the MSCI World ex USA Index (net dividends), the Portfolio's benchmark. With value stocks outperforming growth stocks, the Portfolio's greater emphasis on value stocks contributed positively to performance relative to the benchmark.

### **International High Relative Profitability Portfolio**

The International High Relative Profitability Portfolio invests in developed ex U.S. large-cap stocks with higher profitability. The Portfolio generally excludes real estate investment trusts (REITs) and highly regulated utilities. The investment strategy is process driven, emphasizing broad diversification, with increased exposure to stocks with smaller total market capitalizations, lower relative price (value), and higher profitability within the large cap high relative profitability segment of developed ex U.S. markets. As of October 31, 2023, the Portfolio held approximately 450 securities in 22 eligible developed markets. Average cash exposure throughout the year was less than 1% of the Portfolio's assets.

For the 12 months ended October 31, 2023, total returns were 13.58% for the Portfolio and 12.56% for the MSCI World ex USA Index (net dividends), the Portfolio's benchmark. The Portfolio's emphasis on stocks with lower relative prices within the large-cap high relative profitability segment of developed ex U.S. markets contributed positively to performance relative to the benchmark, as those stocks generally outperformed. The Portfolio's exclusion of REITs also contributed positively to relative performance, as REITs generally underperformed.

#### World ex U.S. Value Portfolio

The World ex U.S. Value Portfolio is designed to capture the returns of value stocks across all market capitalizations in developed ex U.S. and emerging markets. The Portfolio may pursue its objective by holding direct securities; by purchasing shares of funds managed by Dimensional: the DFA International Value Series, the DFA International Small Cap Value Portfolio, and the Dimensional Emerging Markets Value Fund (the "Underlying Funds"); or by a combination of securities and Underlying Funds. The Underlying Funds generally exclude real estate investment trusts (REITs) and highly regulated utilities. The investment strategy is process driven, emphasizing broad diversification. As of October 31, 2023, the Portfolio, directly and through the Underlying Funds, held approximately 5,620 securities in 44 eligible developed ex U.S. and emerging markets.

For the 12 months ended October 31, 2023, total returns were 16.53% for the Portfolio and 15.07% for the MSCI All Country World ex USA Value Index (net dividends), the Portfolio's benchmark. The Underlying Funds' focus on low relative price (value) stocks contributed positively to performance relative to the benchmarks, as value stocks outperformed high relative price (growth) stocks in developed ex U.S. and emerging markets.

### World ex U.S. Targeted Value Portfolio

The World ex U.S. Targeted Value Portfolio invests in small- and mid-cap value stocks in developed ex U.S. and emerging markets, with an emphasis on those with higher profitability. The Portfolio generally excludes certain companies with high asset growth, real estate investment trusts (REITs), and highly regulated utilities. The investment strategy is process driven, emphasizing broad diversification. As of October 31, 2023, the Portfolio held approximately 5,060 securities in 43 eligible developed ex U.S. and emerging markets. Average cash exposure throughout the year was less than 1% of the Portfolio's assets.

For the 12 months ended October 31, 2023, total returns were 15.76% for the Portfolio and 12.82% for the MSCI All Country World ex USA SMID Value Index (net dividends), the Portfolio's benchmark. The Portfolio's focus on value stocks contributed positively to performance relative to the benchmark, as value stocks outperformed growth stocks in developed ex U.S. and emerging markets. The Portfolio's exclusion of REITs also contributed positively to performance relative to the benchmarks, as REITs generally underperformed.

### World ex U.S. Core Equity Portfolio

The World ex U.S. Core Equity Portfolio invests in a broadly diversified group of stocks in developed ex U.S. and emerging markets with increased exposure to stocks with smaller market capitalization, lower relative price (value), and higher profitability. Additionally, the Portfolio generally excludes real estate investment trusts (REITs). The investment strategy is process driven, emphasizing broad diversification. As of October 31, 2023, the Portfolio held approximately 10,540 securities in 46 eligible developed ex U.S. and emerging markets. Average cash exposure throughout the year was less than 1% of the Portfolio's assets.

For the 12 months ended October 31, 2023, total returns were 14.01% for the Portfolio and 12.07% for the MSCI All Country World ex USA Index (net dividends), the Portfolio's benchmark. The Portfolio's emphasis on value stocks contributed positively to performance relative to the benchmark, as value stocks outperformed growth stocks in developed ex U.S. and emerging markets.

### **World Core Equity Portfolio**

The World Core Equity Portfolio seeks long-term capital appreciation generally by investing in a combination of mutual funds managed by Dimensional. During the period covered by this report, the Portfolio's investments included the U.S. Core Equity 1 Portfolio, International Core Equity Portfolio, and Emerging Markets Core Equity Portfolio (collectively, the "Underlying Funds"). The Underlying Funds generally exclude real estate investment trusts (REITs). The investment strategy is process driven, emphasizing broad diversification. As of October 31, 2023, the Underlying Funds collectively held approximately 14,710 equity securities in 47 eligible developed and emerging markets.

For the 12 months ended October 31, 2023, total returns were 9.65% for the Portfolio and 10.50% for the MSCI All Country World Index (net dividends), the Portfolio's benchmark. The Underlying Funds' emphasis on stocks with smaller market capitalizations detracted from performance relative to the benchmark, as these stocks underperformed in developed markets. The Underlying Funds' emphasis on low relative price (value) stocks also detracted from performance relative to the benchmark, as value stocks underperformed high relative price (growth) stocks in the U.S.

### Selectively Hedged Global Equity Portfolio

The Selectively Hedged Global Equity Portfolio seeks long-term capital appreciation by investing in a combination of other mutual funds managed by Dimensional. During the period covered by this report, the Portfolio invests in the U.S. Core Equity 2 Portfolio, International Core Equity Portfolio, and Emerging Markets Core Equity Portfolio (the "Underlying Funds"). The Underlying Funds generally exclude real estate investment trusts (REITs). The Portfolio hedges foreign currency exposure on a selective basis to capture positive forward currency premiums. The investment strategy is process driven, emphasizing broad diversification. As of October 31, 2023, the Underlying Funds collectively held approximately 14,720 securities in 47 eligible developed and emerging markets.

For the 12 months ended October 31, 2023, total returns were 9.43% for the Portfolio and 10.50% for the MSCI All Country World Index (net dividends), the Portfolio's benchmark. The Underlying Funds' emphasis on stocks with smaller market capitalizations detracted from performance relative to the benchmark, as these stocks underperformed in developed markets. The Underlying Funds' emphasis on low relative price (value) stocks also detracted from performance relative to the benchmark, as value stocks underperformed high relative price (growth) stocks in the U.S.

### **Emerging Markets Portfolio**

The Emerging Markets Portfolio invests in large-cap stocks in emerging markets by purchasing shares of The Emerging Markets Series, a Master Fund managed by Dimensional that invests in such securities. The Master Fund generally excludes real estate investment trusts (REITs). The investment strategy is process driven, emphasizing broad diversification with increased exposure to stocks with smaller market capitalizations, lower relative price (value), and higher profitability within the large-cap segment of emerging markets. As of October 31, 2023, the Master Fund held approximately 1,840 securities in 24 eligible emerging markets. Average cash exposure throughout the year was less than 1% of the Master Fund's assets.

For the 12 months ended October 31, 2023, total returns were 13.02% for the Portfolio and 10.80% for the MSCI Emerging Markets Index (net dividends), the Portfolio's benchmark. The Master Fund's greater emphasis on low relative price (value) stocks contributed positively to performance relative to the benchmark, as value stocks outperformed high relative price (growth) stocks in emerging markets. The Master Fund's emphasis on stocks with smaller market capitalizations also contributed

positively to relative performance, as these stocks outperformed. Additionally, the Master Fund's emphasis on stocks with higher profitability contributed positively to performance relative to the benchmark, as these stocks generally outperformed.

### **Emerging Markets Small Cap Portfolio**

The Emerging Markets Small Cap Portfolio invests in small company stocks in emerging markets by purchasing shares of The Emerging Markets Small Cap Series, a Master Fund managed by Dimensional that invests in such securities. The Master Fund generally excludes stocks with the lowest profitability and highest relative price, certain companies with high asset growth, and real estate investment trusts (REITs). The Master Fund's investment strategy is process driven, emphasizing broad diversification. As of October 31, 2023, the Master Fund held approximately 4,830 securities in 21 eligible emerging markets. Average cash exposure throughout the year was less than 1% of the Master Fund's assets.

For the 12 months ended October 31, 2023, total returns were 15.09% for the Portfolio and 10.80% for the MSCI Emerging Markets Index (net dividends), the Portfolio's benchmark. With small-cap stocks outperforming large-cap stocks in emerging markets, the Master Fund's inclusion of stocks with smaller market capitalizations contributed positively to performance relative to the benchmark, which is composed primarily of large- and mid-cap stocks.

### **Emerging Markets Value Portfolio**

The Emerging Markets Value Portfolio invests in value stocks of large and small companies in emerging markets by purchasing shares of the Dimensional Emerging Markets Value Fund, a Master Fund managed by Dimensional that invests in such securities. The Master Fund generally excludes real estate investment trusts (REITs) and highly regulated utilities. The investment strategy is process driven, emphasizing broad diversification with increased exposure to stocks with smaller market capitalizations, lower relative price (value), and higher profitability within the value segment of emerging markets. As of October 31, 2023, the Master Fund held approximately 3,230 securities in 22 eligible emerging markets. Average cash exposure throughout the year was less than 1% of the Master Fund's assets.

For the 12 months ended October 31, 2023, total returns were 15.71% for the Portfolio, 13.43% for the MSCI Emerging Markets Value Index (net dividends) and 10.80% for the MSCI Emerging Markets Index (net dividends). The Master Fund's focus on value stocks contributed positively to performance relative to the benchmarks, as value stocks outperformed growth stocks in emerging markets. With small-cap stocks outperforming large-cap stocks in emerging markets, the Master Fund's inclusion of and emphasis on small-caps also contributed positively to performance relative to the benchmarks, which are composed primarily of large- and mid-cap stocks. Additionally, the Master Fund's emphasis on stocks with higher profitability contributed positively to performance relative to the benchmarks, as these stocks generally outperformed.

### **Emerging Markets Core Equity Portfolio**

The Emerging Markets Core Equity Portfolio invests in a broadly diversified group of stocks in emerging markets, with increased exposure to stocks with smaller market capitalization, lower relative price (value), and higher profitability. The Portfolio generally excludes real estate investment trusts (REITs). The investment strategy is process driven, emphasizing broad diversification. As of October 31, 2023, the Portfolio held approximately 6,780 securities in 24 eligible emerging markets. Average cash exposure throughout the year was less than 1% of the Portfolio's assets.

For the 12 months ended October 31, 2023, total returns were 15.49% for the Portfolio and 10.80% for the MSCI Emerging Markets Index (net dividends), the Portfolio's benchmark. With value stocks outperforming growth stocks, the Portfolio's greater emphasis on value stocks contributed positively to performance relative to the benchmark. With small-cap stocks outperforming large-cap stocks in emerging markets, the Portfolio's inclusion of and emphasis on small-caps also contributed positively to performance relative to the benchmark, which is composed primarily of large- and mid-cap stocks. Additionally, the Portfolio's emphasis on stocks with higher profitability contributed positively to performance relative to the benchmark, as these stocks generally outperformed.

### **Emerging Markets Targeted Value Portfolio**

The Emerging Markets Targeted Value Portfolio invests in value stocks of small- and mid-cap companies in emerging markets. The Portfolio generally excludes certain companies with high asset growth, real estate investment trusts (REITs), and highly regulated utilities. The investment strategy is process driven, emphasizing broad diversification with increased exposure to smaller total market capitalizations, lower relative price (value) stocks, and higher-profitability stocks within the small- and mid-cap value segment of emerging markets. The Portfolio generally excludes certain companies with high asset growth, real estate investment trusts (REITs), and highly regulated utilities. As of October 31, 2023, the Portfolio held approximately 3,190 securities in 21 eligible emerging markets. Average cash exposure throughout the year was less than 1% of the Portfolio's assets.

For the 12 months ended October 31, 2023, total returns were 15.20% for the Portfolio and 10.80% for the MSCI Emerging Markets Index (net dividends), the Portfolio's benchmark. The Portfolio's focus on value stocks contributed positively to performance relative to the style-neutral benchmark, as value stocks outperformed growth stocks in emerging markets. With small-cap stocks outperforming large-cap stocks in emerging markets, the Portfolio's inclusion of and emphasis on small-caps also contributed positively to performance relative to the benchmark, which is composed primarily of large-and mid-cap stocks.

### **Emerging Markets ex China Core Equity Portfolio**

The Emerging Markets ex China Core Equity Portfolio invests in a broadly diversified group of stocks in emerging markets, excluding China, with increased exposure to stocks with smaller market capitalization, lower relative price (value), and higher profitability. The Portfolio generally excludes real estate investment trusts (REITs). The investment strategy is process driven, emphasizing broad diversification. As of October 31, 2023, the Portfolio held approximately 4,060 securities in 23 eligible emerging markets. Average cash exposure throughout the year was less than 1% of the Portfolio's assets.

For the 12 months ended October 31, 2023, total returns were 14.04% for the Portfolio and 7.03% for the MSCI Emerging Markets ex China Index (net dividends), the Portfolio's benchmark. With value stocks outperforming growth stocks, the Portfolio's greater emphasis on value stocks contributed positively to performance relative to the benchmark. With small-cap stocks outperforming large-cap stocks in emerging markets, the Portfolio's inclusion of and emphasis on small-caps also contributed positively to performance relative to the benchmark, which is composed primarily of large- and mid-cap stocks. Additionally, the Portfolio's emphasis on stocks with higher profitability contributed positively to performance relative to the benchmark, as these stocks generally outperformed.

# DFA INVESTMENT DIMENSIONS GROUP INC. DISCLOSURE OF FUND EXPENSES

(Unaudited)

The following Expense Tables are shown so that you can understand the impact of fees on your investment. All mutual funds have operating expenses. As a shareholder of the fund, you incur ongoing costs, which include costs for portfolio management, administrative services, and shareholder reports, among others. Operating expenses and legal and audit services, which are deducted from a fund's gross income, directly reduce the investment return of the fund. A fund's expenses are expressed as a percentage of its average net assets. This figure is known as the expense ratio. The following examples are intended to help you understand the ongoing costs, in dollars, of investing in the fund and to compare these costs with those of other mutual funds. The examples are based on an investment of \$1,000 made at the beginning of the period shown and held for the entire period.

The Expense Tables below illustrate your fund's costs in two ways.

#### **Actual Fund Return**

This section helps you to estimate the actual expenses after fee waivers that you paid over the period. The "Ending Account Value" shown is derived from the fund's actual return, and "Expenses Paid During Period" reflects the dollar amount that would have been paid by an investor who started with \$1,000 in the fund. You may use the information here, together with the amount you invested, to estimate the expenses that you paid over the period.

To do so, simply divide your account value by \$1,000 (for example, a \$7,500 account value divided by \$1,000 = 7.5), then multiply the result by the number given for your fund under the heading "Expenses Paid During Period."

### **Hypothetical Example for Comparison Purposes**

This section is intended to help you compare your fund's costs with those of other mutual funds. The hypothetical "Ending Account Value" and "Expenses Paid During Period" are derived from the fund's actual expense ratio and an assumed 5% annual return before expenses. In this case, because the return used is not the fund's actual return, the results do not apply to your investment. The example is useful in making comparisons because the SEC requires all mutual funds to calculate expenses based on a 5% annual return. You can assess your fund's costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

Please note that the expenses shown in the tables are meant to highlight and help you compare ongoing costs only and do not reflect any transactional costs, if applicable. The "Annualized Expense Ratio" represents the actual expenses for the six-month period indicated.

Six Months Ended October 31, 2023

### DISCLOSURE OF FUND EXPENSES CONTINUED

	Beginning Account Value 05/01/23	Ending Account Value 10/31/23	Annualized Expense Ratio (1)	Expenses Paid During Period (1)
Hypothetical 5% Annual Return	\$1,000.00	\$1,023.09	0.42%	\$2.14

<sup>(1)</sup> Expenses are equal to the fund's annualized expense ratio for the six-month period, multiplied by the average account value over the period, multiplied by the number of days in the most recent six-month period (184), then divided by the number of days in the year (365) to reflect the six-month period.

<sup>(2)</sup> The Portfolio is a Fund of Funds. The expenses shown reflect the direct expenses of the Fund of Funds and the Fund of Funds' portion of the expenses of its Underlying Funds (Affiliated Investment Companies).

<sup>(3)</sup> The Portfolio is a Feeder Fund. The expenses shown reflect the direct expenses of the Feeder Fund and the allocation of the Feeder Fund's portion of the expenses of its Master Fund (Affiliated Investment Company).

<sup>(4)</sup> The Portfolio invests directly and indirectly through other funds. The expenses shown reflect the direct expenses of the fund and the fund's portion of the expenses of its Master and/or Underlying Funds (Affiliated Investment Companies).

## DFA INVESTMENT DIMENSIONS GROUP INC. DISCLOSURE OF PORTFOLIO HOLDINGS

#### (Unaudited)

The SEC requires that all funds file a complete Schedule of Investments with the SEC for their first and third fiscal quarters as an exhibit to their reports on Form N-PORT. For DFA Investment Dimensions Group Inc., this would be for the fiscal quarters ending January 31 and July 31. Such Form N-PORT filing must be made within 60 days of the end of the quarter. DFA Investment Dimensions Group Inc. filed its most recent Form N-PORT with the SEC on September 29, 2023 They are available upon request, without charge, by calling collect: (512) 306-7400; by mailing a request to Dimensional Fund Advisors LP, 6300 Bee Cave Road, Building One, Austin, TX 78746; or by visiting the SEC's website at http://www.sec.gov.

SEC regulations permit a fund to include in its reports to shareholders a "Summary Schedule of Portfolio Holdings" in lieu of a full Schedule of Investments. The Summary Schedule of Portfolio Holdings reports the fund's 50 largest holdings in unaffiliated issuers and any investments that exceed one percent of the fund's net assets at the end of the reporting period. The regulations also require that the Summary Schedule of Portfolio Holdings identify each category of investments that are held.

A fund is required to file a complete Schedule of Investments with the SEC on Form N-CSR within ten days after mailing the annual and semi-annual reports to shareholders. It will be available upon request, without charge, by calling collect: (512) 306-7400; by mailing a request to Dimensional Fund Advisors LP, 6300 Bee Cave Road, Building One, Austin, TX 78746; or by visiting the SEC's website at http://www.sec.gov.

#### **PORTFOLIO HOLDINGS**

The SEC requires that all funds present their categories of portfolio holdings in a table, chart, or graph format in their annual and semi-annual shareholder reports, whether or not a Schedule of Investments is used. The following table, which presents portfolio holdings as a percentage of total investments before short-term investments and collateral for loaned securities, is provided in compliance with this requirement. The categories shown below represent broad industry sectors. Each industry sector consists of one or more specific industry classifications.

The categories of industry classification for the Affiliated Investment Companies are represented in their Disclosures of Portfolio Holdings, which are included elsewhere in the report. Refer to the Schedule of Investments/Summary Schedule of Portfolio Holdings for each of the underlying Affiliated Investment Company's holdings, which reflect the investments by category or country.

### DFA INVESTMENT DIMENSIONS GROUP INC. NOTES TO FINANCIAL STATEMENTS

### A. Organization:

DFA Investment Dimensions Group Inc. (the "Fund") is an open-end management investment company registered under the Investment Company Act of 1940 (the "1940 Act"), whose shares are generally offered to institutional investors, retirement plans and clients of registered investment advisors. The Fund consists of one hundred and two operational portfolios, of which twenty-four (the "Portfolios") are included in this section of the report. The remaining operational portfolios are presented in separate reports. The Portfolios are investment companies, and accordingly, follow the accounting and reporting guidance under the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC"), Topic 946, "Financial Services-Investment Companies."

Of the Portfolios, seven invest all of their assets in a corresponding series or fund (each such Portfolio, a "Feeder Fund"). Of the Feeder Funds, six invest all of their assets in a corresponding series of The DFA Investment Trust Company ("DFAITC") and one invests all of its assets in the Dimensional Emerging Markets Value Fund ("DEM") (each such series within DFAITC and DEM, a "Master Fund", treated as partnerships for federal income tax purposes). Six of the Portfolios generally allocate their assets among other funds managed by Dimensional Fund Advisors LP (each such Portfolio, a "Fund of Funds"). The Fund of Funds may also invest in affiliated and unaffiliated registered and unregistered money market funds. The International Small Company Portfolio invests in five Master Funds within DFAITC. The Global Small Company Portfolio invests in six Master Funds within DFAITC and one underlying fund within the Fund (each such underlying fund within the Fund, an "Underlying Fund"). The DFA Global Real Estate Securities Portfolio invests in two Underlying Funds within the Fund and directly in securities. The World ex U.S. Value Portfolio invests in three Master/Underlying Funds within the Fund, DFAITC, and DEM. The World Core Equity Portfolio and Selectively Hedged Global Equity Portfolio each invest in three Underlying Funds within the Fund. As of October 31, 2023, the following Portfolios were the owner of record of the following approximate percentages of the total outstanding shares of the following Master/Underlying Funds as detailed below:

Percentage

Feeder Funds	Master/Underlying Funds	Ownership at 10/31/23

<sup>\*</sup> DFA Global Real Estate Securities Portfolio invests in two Underlying Funds as indicated and securities listed on its Summary Schedule of Investments.

To achieve its investment objective, each Feeder Fund and Fund of Funds invests substantially all of its assets in corresponding Master and/or Underlying Funds as indicated above. The DFA Global Real Estate Securities Portfolio may pursue its investment objective by investing its assets in its Underlying Funds and/or directly in securities of companies in the real estate industry. Each Feeder Fund and Fund of Funds also invests in short-term temporary cash investments and futures. In addition, each Fund of Funds may engage in forward currency contracts.

The financial statements of the Feeder Funds' Master Funds are included elsewhere in this report and should be read in conjunction with the financial statements of the Feeder Funds.

### **B. Significant Accounting Policies:**

The following significant accounting policies are in conformity with accounting principles generally accepted in the United States of America ("GAAP"). Such policies are consistently followed by the Fund in preparation of its financial statements. The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the fair value of investments, the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates, and those differences could be material.

- 1. Security Valuation: The Portfolios use a fair value hierarchy, which prioritizes the inputs-to-valuation techniques used to measure fair value into three broad levels described below:
  - Level 1 inputs are quoted prices in active markets for identical securities (including equity securities, open-end investment companies, and futures contracts)
  - Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

• Level 3 – significant unobservable inputs (including the Portfolios' own assumptions in determining the fair value of investments)

Securities held by Large Cap International Portfolio, International Core Equity Portfolio, DFA International Real Estate Securities Portfolio, DFA International Small Cap Value Portfolio, International Vector Equity Portfolio, World ex U.S. Core Equity Portfolio, World ex U.S. Targeted Value Portfolio, Emerging Markets Core Equity Portfolio, International High Relative Profitability Portfolio, Emerging Markets Targeted Value Portfolio and Emerging Markets ex China Core Equity Portfolio (the "International Equity Portfolios"), including over-the-counter securities, are valued at the last quoted sale price of the day. International equity securities are subject to a fair value factor, as described later in this note. Securities held by the International Equity Portfolios that are listed on Nasdaq are valued at the Nasdaq Official Closing Price ("NOCP"). If there is no last reported sale price or NOCP for the day, the International Equity Portfolios value the securities at the mean between the most recent quoted bid and ask prices. Price information on listed securities is taken from the exchange where the security is primarily traded. Generally, securities issued by open-end management investment companies are valued using their respective net asset values or public offering prices, as appropriate, for purchase orders placed at the close of the New York Stock Exchange ("NYSE"). These securities are generally categorized as Level 1 in the hierarchy.

Securities for which no market quotations are readily available (including restricted securities), or for which market quotations have become unreliable, are valued in good faith at fair value in accordance with Rule 2a-5 under the 1940 Act pursuant to procedures approved by the Board of Directors of the Fund. Fair value pricing may also be used if events that have a significant effect on the value of an investment (as determined in the discretion of Dimensional Fund Advisors LP) occur before the net asset value of the Portfolio is calculated. When fair value pricing is used, the prices of securities used by the International Equity Portfolios may differ from the quoted or published prices for the same securities on their primary markets or exchanges. These securities are generally categorized as Level 2 or Level 3 in the hierarchy.

The International Equity Portfolios will also apply a fair value price in the circumstances described below. Generally, trading in foreign securities markets is completed each day at various times prior to the close of the NYSE. For example, trading in the Japanese securities markets is completed each day at the close of the Tokyo Stock Exchange (normally, 2:00 a.m. ET), which is fourteen hours before the close of the NYSE (normally, 4:00 p.m. ET) and the time at which the net asset values of the International Equity Portfolios are computed. Due to the time differences between the closings of the relevant foreign securities exchanges and the pricing of the International Equity Portfolios' shares (at the close of the NYSE), the International Equity Portfolios will fair-value their foreign investments when it is determined that the market quotations for the foreign investments are either unreliable or not readily available. The fair value prices will attempt to reflect the impact of the U.S. financial markets' perceptions and trading activities on the International Equity Portfolios' foreign investments since the last calculated closing prices of the foreign investments on their primary foreign securities markets or exchanges. For these purposes, Dimensional Fund Advisors LP has determined that movements in relevant indices or other appropriate market indicators, after the close of the Tokyo Stock Exchange or the London Stock Exchange, demonstrate that market quotations may be unreliable. Fair valuation of portfolio securities may occur on a daily basis. The fair value pricing by the International Equity Portfolios uses data furnished by an independent pricing service (and that data draws upon, among other information, the market values of foreign investments). When an International Equity Portfolio uses fair value pricing, the values assigned to the International Equity Portfolio's foreign investments may not be the quoted or published prices of the investments on their primary markets or exchanges. These securities are generally categorized as Level 2 in the hierarchy.

Debt securities held by the Portfolios are valued on the basis of evaluated prices provided by one or more pricing services or other reasonably reliable sources including broker/dealers that typically handle the purchase and sale of such securities. Securities that are traded over-the-counter and on a stock exchange generally will be valued according to the broadest and most representative market, and it is expected that for bonds and other fixed income securities, this ordinarily will be the over-the-counter market. These securities are generally categorized as Level 2 or Level 3 in the hierarchy.

Listed derivatives, such as futures, that are actively traded are valued based on quoted prices from the exchange and are categorized as Level 1 in the hierarchy. Over-the-counter derivative contracts, which include forward currency contracts, do not require material subjectivity as pricing inputs are observed from quoted markets and are categorized as Level 2 in the hierarchy.

Shares held by the Portfolios in other investment companies (such as the Master/Underlying Funds) are valued at their respective daily net asset values as reported by their administrator. The Feeder Funds', International Small Company Portfolio's, Global Small Company Portfolio's and World ex U.S. Value Portfolio's investments in series of either DFAITC or DEM reflect their proportionate interest in the net assets of such corresponding Master Fund(s). These valuations are classified as Level 1 in the hierarchy.

A summary of the inputs used to value the Portfolios' investments by each major security type, industry and/or country is disclosed previously in this note. A valuation hierarchy table has been included at the end of the Summary Schedule of Portfolio Holdings/Schedule of Investments (except for the Feeder Funds). The methodology or inputs used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

2. Foreign Currency Translation: Securities and other assets and liabilities of the Portfolios whose values are initially expressed in foreign currencies are translated to U.S. dollars using the mean between the most recent bid and ask prices for the U.S. dollar as quoted by generally recognized reliable sources. To facilitate the translation, the Portfolios enter into foreign currency contracts. A foreign currency contract is a spot agreement between two parties to buy and sell currencies at current market exchange rates, for settlement generally within two business days. Dividend and interest income and certain expenses are translated to U.S. dollars at the rate of exchange on their respective accrual dates. Receivables and payables denominated in foreign currencies are marked-to-market daily based on daily exchange rates and exchange gains or losses are realized upon ultimate receipt or disbursement. The Portfolios also enter into forward currency contracts for the purpose of hedging against fluctuations in currency exchange rates. These contracts are marked-to-market daily based on daily forward exchange rates.

The International Equity Portfolios do not isolate the effect of foreign exchange rate fluctuations from the effect of fluctuations in the market prices of securities, whether realized or unrealized. However, the Selectively Hedged Global Equity Portfolio does isolate the effect of foreign currency rate fluctuations when determining the realized gain or loss upon the sale or maturity of foreign currency-denominated debt obligations pursuant to U.S. Federal income tax regulations; such amounts are categorized as foreign exchange gain or loss for income tax reporting purposes.

Realized gains or losses on foreign currency transactions represent net foreign exchange gains or losses from the disposition of foreign currencies, currency gains or losses realized between the trade and settlement dates of securities transactions, and the difference between amounts of interest, dividends and any foreign withholding taxes recorded on the books of the International Equity Portfolios and Selectively Hedged Global Equity Portfolio and the U.S. dollar equivalent amounts actually received or paid.

3. Deferred Compensation Plan: Each eligible Director of the Fund may elect to participate in the Fee Deferral Plan for Independent Directors and Trustees (the "Plan"). Under the Plan, effective January 1, 2002, such Directors may defer payment of all or a portion of their total fees earned as a Director. These deferred amounts may be treated as though such amounts had been invested in shares of the following funds: the U.S. Large Cap Value Portfolio, U.S. Core Equity 1 Portfolio, U.S. Large Company Portfolio, U.S. Vector Equity Portfolio, U.S. Micro Cap Portfolio, DFA International Value Portfolio, International Core Equity Portfolio, Emerging Markets Portfolio, Emerging Markets Core Equity Portfolio, DFA Inflation-Protected Securities Portfolio, and/or DFA Two-Year Global Fixed Income Portfolio. Contributions made under the Plan and the change in unrealized appreciation (depreciation) and income are included in Directors'/ Trustees' Fees & Expenses.

The Directors may receive their distributions of proceeds by one of the following methods: lump sum, annual installments over a period of agreed-upon years, or quarterly installments over a period of agreed-upon years. Each Director shall have the right in a notice of election (the "Notice") to defer the receipt of the Director's deferred compensation until a date specified by such Director in the Notice. The date may not be sooner than the earlier of: (i) the first business day of January following the year in which such Director ceases to be a member of the Board of Directors of the Fund; and (ii) five years following the effective date of the Director's first deferral election. If a Director who elects to defer fees fails to designate in the Notice a time or date as of which payment of the Director's deferred

fee account shall commence, payment of such amount shall commence as of the first business day of January following the year in which the Director ceases to be a member of the Board (unless the Director files an amended Notice selecting a different distribution date).

4. Other. Security transactions are accounted for as of the trade date. Costs used in determining realized gains and losses on the sale of investment securities/affiliated investment companies and foreign currency are accounted for on the basis of identified cost. Dividend income and distributions to shareholders are recorded on the ex-dividend date. Non-cash dividend income received in the form of securities in-lieu of cash, if any, are recorded at the fair value of securities received. Distributions received on securities and from the investment in affiliated investment companies that represent a return of capital or capital gains are recorded as a reduction of cost of investments or as a realized gain, respectively. The Portfolios estimate the character of received distributions that may be considered return of capital distributions. Interest income is recorded on an accrual basis. Discount and premium on debt securities purchased are amortized over the lives of the respective securities, using the effective interest method. Expenses directly attributable to a Portfolio are directly charged. Common expenses of the Fund or the Portfolios are allocated using methods approved by the Board, generally based on average net assets.

Organizational costs are expensed during the fiscal year of inception of the Portfolios. Offering costs are amortized over a twelve-month period from the inception of the Portfolios.

The Feeder Funds, International Small Company Portfolio, Global Small Company Portfolio, and World ex U.S. Value Portfolio recognize their pro-rata shares of net investment income and realized and unrealized gains/losses on a daily basis from their respective Master Fund(s) within DFAITC or DEM, which are treated as partnerships for federal income tax purposes.

The Portfolios may be subject to taxes imposed by countries in which they invest with respect to their investments in issuers existing or operating in such countries. Such taxes are generally based on income earned or repatriated and capital gains realized on the sale of such investments. The Portfolios accrue such taxes when the related income or capital gains are earned or throughout the holding period. Some countries require governmental approval for the repatriation of investment income, capital or the proceeds of sales earned by foreign investors. Additionally, if there is a deterioration in a country's balance of payments or for other reasons, a country may impose temporary restrictions on foreign capital remittances abroad.

The Emerging Markets Portfolio, Emerging Markets Small Cap Portfolio, Emerging Markets Value Portfolio, Global Small Company Portfolio, World ex U.S. Value Portfolio, World ex U.S. Core Portfolio, World ex U.S. Targeted Value Portfolio, Emerging Markets Core Equity Portfolio, Emerging Markets Targeted Value Portfolio and Emerging Markets ex China Core Equity Portfolio are subject to tax on short-term and long-term capital gains for investments in India. Such taxes are accrued on a daily basis and due upon sale of individual securities.

### C. Investment Advisor:

The Advisor, Dimensional Fund Advisors LP, provides investment management services to the Portfolios. For the year ended October 31, 2023, the Portfolios' investment management fees were accrued daily and paid monthly to the Advisor based on the following effective annual rates of average daily net assets:

Large Cap International Portfolio	0.14%
International Core Equity Portfolio	0.20%
Global Small Company Portfolio	0.35%
International Small Company Portfolio	0.25%
Japanese Small Company Portfolio	0.35%
Asia Pacific Small Company Portfolio	0.35%
United Kingdom Small Company Portfolio	0.35%
Continental Small Company Portfolio	0.35%
DFA International Real Estate Securities Portfolio	0.24%
DFA Global Real Estate Securities Portfolio	0.19%*
DFA International Small Cap Value Portfolio	0.39%

International Vector Equity Portfolio	0%
International High Relative Profitability Portfolio	5%
World ex U.S. Value Portfolio	2%
World ex U.S. Core Equity Portfolio	5%
World ex U.S. Targeted Value Portfolio	0%
World Core Equity Portfolio	2%
Selectively Hedged Global Equity Portfolio	4%
Emerging Markets Portfolio	9%
Emerging Markets Small Cap Portfolio	2%
Emerging Markets Value Portfolio	8%
Emerging Markets Core Equity Portfolio	3%
Emerging Markets Targeted Value Portfolio	2%
Emerging Markets ex China Core Equity Portfolio	3%

<sup>\*</sup> Effective as of February 28, 2023, the management fee payable by the DFA Global Real Estate Securities Portfolio was reduced from 0.20% to 0.19%.

Pursuant to Amended and Restated Fee Waiver and/or Expense Assumption Agreements (each, a "Fee Waiver Agreement"), the Advisor has contractually agreed to waive certain fees, and in certain instances, assume certain expenses of the Portfolios, as described in the notes below. The Fee Waiver Agreements for the non-Feeder Funds, and a portion of the Fee Waiver Agreement for certain Feeder Funds below, will remain in effect through February 28, 2024, may only be terminated by the Fund's Board of Directors prior to that date and shall continue in effect from year to year thereafter unless terminated by the Fund or the Advisor. The Fee Waiver Agreement with respect to the total management fees paid by the Feeder Funds, as described in the notes below, will remain in effect permanently, unless terminated by a Feeder Fund. During the year ended October 31, 2023, the Portfolios had expense limits based on a percentage of average net assets on an annualized basis, and the Advisor recovered previously waived fees and/or assumed expenses (amounts in thousands), as listed below. The net amount of waived fees/expenses assumed (recovered previously waived fees/expenses assumed) during the year ended October 31, 2023, and the previously waived fees/expenses assumed subject to future recovery by the Advisor as of October 31, 2023, are also reflected below (amounts in thousands). At any time that the Portfolio Expenses (defined below) of a class of a Portfolio are less than the applicable Expense Limitation Amount/Total Management Fee Limit listed below, the Advisor retains the right to recover fees previously waived and/or expenses previously assumed to the extent that the expense ratio following such recovery would be less than the Expense Limitation Amount/Total Management Fee Limit that was in place when such prior year fees were waived and/or expenses assumed, and less than the current Expense Limitation Amount/Total Management Fee Limit in place for the Portfolio. The Advisor, however, will not be reimbursed by a Feeder Portfolio in connection with its Permanent Fee Waiver. The Fund, on behalf of a Portfolio, is also not obligated to reimburse the Advisor for fees previously waived or expenses previously assumed by the Advisor more than thirty-six months before the date of recovery. With respect to the World ex U.S. Value Portfolio, World Core Equity Portfolio, World ex U.S. Targeted Value Portfolio and Selectively Hedged Global Equity Portfolio, the Advisor shall also not be reimbursed for any management fees previously waived to offset a Portfolio's proportionate share of the management fees paid by such Portfolio through its investment in other funds managed by the Advisor.

<sup>(1)</sup> The Advisor has contractually agreed to waive all or a portion of its management fee and assume each Portfolio's ordinary operating expenses (excluding the expenses a Portfolio incurs indirectly through investment in other investment companies) ("Portfolio Expenses") to the extent necessary to limit the Portfolio Expenses of each Portfolio to the rates listed above as a percentage of average net assets on an annualized basis (the "Expense Limitation Amount").

- (2) The Advisor has contractually agreed to waive all or a portion of its management fee and to assume the ordinary operating expenses of a class of the Portfolio (including the expenses that the Portfolio bears as a shareholder of other funds managed by the Advisor, excluding money market funds, but excluding the expenses that the Portfolio incurs indirectly through its investment in unaffiliated investment companies) ("Portfolio Expenses") to the extent necessary to limit the Portfolio Expenses of a class of the Portfolio to the rate listed above as a percentage of the average net assets of a class of the Portfolio on an annualized basis (the "Expense Limitation Amount"). Prior to February 28, 2022, the Expense Limitation Amount for the Global Small Company Portfolio was 0.47% of the average net assets of such class of the Portfolio on an annualized basis.
- (3) The Advisor has contractually agreed to waive all or a portion of its management fee and to assume the other direct expenses of a class of the Portfolio (excluding expenses incurred through its investment in other investment companies) ("Portfolio Expenses") to the extent necessary to limit the Portfolio Expenses of a class of the Portfolio to the rate listed above as a percentage of the average net assets of a class of the Portfolio on an annualized basis (the "Expense Limitation Amount").
- (4) Effective February 28, 2022, the Advisor has contractually agreed to permanently waive all or a portion of the management fee of each Portfolio to the extent necessary to limit the total management fees paid to the Advisor by each Portfolio, including the proportionate share of the management fees a Portfolio pays indirectly through its investment in other funds managed by the Advisor, except for the fees paid indirectly through its investment of securities lending cash collateral in the Money Market Series, to 0.35% of the average net assets of a class of a Portfolio on an annualized basis (the "Permanent Fee Waiver"). From February 28, 2021 to February 27, 2022, the Permanent Fee Waiver Limit was 0.40%. From February 28, 2020 to February 27, 2021, the Permanent Fee Waiver Limit was 0.47%. From July 21, 2015 to February 27, 2020, the Permanent Fee Waiver Limit was 0.50%. In addition to the Permanent Fee Waiver, the Advisor has contractually agreed to further waive all or a portion of its management fee and to assume the other direct expenses of a class of each Portfolio (excluding expenses incurred through its investment in other investment companies managed by the Advisor) ("Portfolio Expenses") to the extent necessary to limit the Portfolio Expenses of each class of a Portfolio to the rates listed above as a percentage of the average net assets of each class of such Portfolios on an annualized basis (the "Expense Limitation Amount").
- (5) Effective February 28, 2023, the Advisor has contractually agreed to waive all or a portion of its management fee and to assume the expenses of the Portfolio (including the expenses that the Portfolio bears as a shareholder of its Master/Underlying Funds but excluding the expenses that the Portfolio incurs indirectly through investment of its securities lending cash collateral in the Money Market Series and its investment in unaffiliated investment companies) ("Portfolio Expenses") to the extent necessary to limit the Portfolio Expenses of the Portfolio to the rate listed above as a percentage of the Portfolio's average net assets on an annualized basis (the "Expense Limitation Amount"). Prior to February 28, 2023, the Expense Limitation Amount for the DFA Global Real Estate Securities Portfolio was 0.24% of the average net assets of such class of the Portfolio on an annualized basis.
- (6) Effective February 28, 2022, the Advisor has contractually agreed to waive up to the full amount of the Portfolio's management fee of 0.32% to the extent necessary to offset the proportionate share of the management fees paid by the Portfolio through its investment in its Master/Underlying Funds, except for the fees paid through its investment of securities lending cash collateral in the Money Market Series (the "Total Management Fee Limit"). From February 28, 2021 to February 27, 2022, the Total Management Fee Limit was 0.37%. From February 28, 2020 to February 27, 2021, the Total Management Fee Limit was 0.43%. Prior to February 28, 2020, the Total Management Fee Limit was 0.47%. In addition, under the Fee Waiver Agreement, the Advisor also has agreed to waive all or a portion of the management fee that remains payable by the Portfolio (i.e., the management fee remaining after the proportionate share of the Master/Underlying Funds' management fees have been offset (the "Remaining Management Fee")) to the extent necessary to reduce the Portfolio's ordinary operating expenses (including expenses incurred through its investment in other investment companies but excluding the expenses that the Portfolio incurs indirectly through investment of its securities lending cash collateral in the Money Market Series) ("Portfolio Expenses") to the rate listed above as a percentage of average net assets on an annualized basis (the "Expense Limitation Amount"). The maximum amount that may be waived to limit Portfolio Expenses is the amount of the Remaining Management Fee.
- (7) The Advisor has contractually agreed to waive all or a portion of its management fee and to assume the expenses of a class of the Portfolio (including the expenses that the Portfolio bears as a shareholder of its Master/ Underlying Funds but excluding the expenses that the Portfolio incurs indirectly through its investment of its securities lending cash collateral in the Money Market Series and its investment unaffiliated investment companies) ("Portfolio Expenses") to the extent necessary to limit the Portfolio Expenses of a class of the Portfolio to the rate listed above as a percentage of average net assets of a class of the Portfolio on an annualized basis (the "Expense Limitation Amount").
- (8) Effective February 28, 2022, the Advisor has contractually agreed to waive up to the full amount of the Portfolio's management fee of 0.40% to the extent necessary to offset the proportionate share of the management fees paid by the Portfolio through its investment in other funds managed by the Advisor, except for the fees paid through its investment of securities lending cash collateral in the Money Market Series (the "Total Management Fee Limit"). From February 28, 2021 to February 27, 2022, the Total Management Fee Limit was 0.45%. From February 28, 2020 to February 27, 2021, the Total Management Fee Limit was 0.53%. Prior to February 28, 2020, the Total Management Fee Limit was 0.58%. In addition, under the Fee Waiver Agreement, the Advisor has also agreed to waive all or a portion of the management fee and to assume the ordinary operating expenses of a class of the Portfolio (including expenses incurred through its investment in other investment companies but excluding the expenses that the Portfolio incurs indirectly through investment of its securities lending cash collateral in the Money Market Series) ("Portfolio Expenses") to the extent necessary to limit the Portfolio Expenses of a class of the Portfolio to the rate listed above as a percentage of the average net assets of a class of the Portfolio Amount").
- (9) Effective February 28, 2021, the Advisor has contractually agreed to waive up to the full amount of the Portfolio's management fee of 0.22% to the extent necessary to offset the proportionate share of the management fees paid by the Portfolio through its investment in its Master/Underlying Funds, except for the fees paid through its investment of securities lending cash collateral in the Money Market Series (including the Portfolio's proportionate share of any management fees that a Master/Underlying Fund paid through its investment in an affiliated cash management fund) (the "Total Management Fee Limit"). From February 28, 2020 to February 27, 2021, the Total Management Fee Limit was 0.27%. Prior to February 28, 2020, the Total Management Fee Limit was 0.30%. In addition, under the Fee Waiver Agreement, the Advisor has also agreed to assume the expenses of a class of the Portfolio to the extent necessary to reduce the ordinary operating expenses (including expenses incurred through its investment in other investment companies but excluding the expenses that the Portfolio incurs indirectly through investment of its securities lending cash collateral in the Money Market Series) ("Portfolio Expenses") of a class of the Portfolio so that such Portfolio Expenses do not exceed the rate listed above as a percentage of the average net assets of a class of the Portfolio on an annualized basis (the "Expense Limitation Amount"). From February 28, 2019 to February 27, 2021, the Expense Limitation Amount was 0.32% of the Amount was 0.35% of the average net assets of such class of the Portfolio on an annualized basis.

- (10) Effective February 28, 2021, the Advisor has contractually agreed to waive up to the full amount of the Portfolio's management fee of 0.24% to the extent necessary to offset the proportionate share of the management fees paid by the Portfolio through its investment in its Master/Underlying Funds, except for the fees paid through its investment of securities lending cash collateral in the Money Market Series (the "Total Management Fee Limit"). From February 28, 2020 to February 27, 2021, the Total Management Fee Limit was 0.28%. Prior to February 28, 2020, the Total Management Fee Limit was 0.30%. In addition, under the Fee Waiver Agreement, the Advisor has also agreed to waive all or a portion of the management fee and to assume the expenses of a class of the Portfolio to the extent necessary to reduce the ordinary operating expenses (including expenses incurred through its investment in other investment companies but excluding the expenses that the Portfolio incurs indirectly through investment of its securities lending cash collateral in the Money Market Series) ("Portfolio Expenses") of the Portfolio to the rate listed above as a percentage of average net assets of a class of the Portfolio on an annualized basis (the "Expense Limitation Amount").
- (11) Effective February 28, 2021, the Advisor has contractually agreed to permanently waive all or a portion of the management fee of the Portfolio to the extent necessary to limit the total management fees paid to the Advisor by the Portfolio, including the proportionate share of the management fees the Portfolio pays indirectly through its investment in other funds managed by the Advisor, except for the fees paid indirectly through its investment of securities lending cash collateral in the Money Market Series, to 0.29% of the average net assets of a class of the Portfolio on an annualized basis (the "Permanent Fee Waiver"). From February 28, 2020 to February 27, 2021, the Permanent Fee Waiver Limit was 0.37%. From July 21, 2015 to February 27, 2020, the Permanent Fee Waiver Limit was 0.42%. In addition to the Permanent Fee Waiver, the Advisor has contractually agreed to further waive all or a portion of its management fee and to assume the other direct expenses of the Portfolio (excluding expenses incurred through its investment in other investment companies managed by the Advisor) ("Portfolio Expenses") to the extent necessary to limit the Portfolio Expenses of each class of the Portfolio to the rate listed above as a percentage of the average net assets of a class of the Portfolio on an annualized basis (the "Expense Limitation Amount").
- (12) Effective February 28, 2021 (February 28, 2022, with respect to the Emerging Markets Value Portfolio), the Advisor has contractually agreed to permanently waive all or a portion of the management fee of each Portfolio to the extent necessary to limit the total management fees paid to the Advisor by a Portfolio, including the proportionate share of the management fees a Portfolio pays indirectly through its investment in other funds managed by the Advisor, except for the fees paid indirectly through its investment of securities lending cash collateral in The DFA Short Term Investment Fund (the "Money Market Series"), to the rate listed above as a percentage of the average net assets of a class of a Portfolio on an annualized basis (the "Permanent Fee Waiver"). From February 28, 2021 to February 27, 2022, the Permanent Fee Waiver Limit for the Emerging Markets Value Portfolio was 0.41%. From February 28, 2020 to February 27, 2021, the Permanent Fee Waiver Limits for the Emerging Markets Small Cap Portfolio and Emerging Markets Value Portfolio were 0.60% and 0.45%, respectively. From July 21, 2015 to February 27, 2020, the Permanent Fee Waiver Limits for the Emerging Markets Small Cap Portfolio and Emerging Markets Value Portfolio were 0.65% and 0.50%, respectively.

### **Earned Income Credit:**

Additionally, Portfolios have entered into arrangements with their custodian whereby net interest earned on uninvested cash balances was used to reduce a portion of the Portfolios' custody expenses. Custody expense in the accompanying financial statements is presented before reduction for credits. The impact of such credits is generally less than one basis point of each Portfolio's net assets. During the year ended October 31, 2023, expenses reduced were as follows (amounts in thousands):

	Fees Paid Indirectly
Large Cap International Portfolio	\$286
DFA International Real Estate Securities Portfolio	310
DFA Global Real Estate Securities Portfolio	36
DFA International Small Cap Value Portfolio	96
International Vector Equity Portfolio	103
World ex U.S. Core Equity Portfolio	60

### Fees Paid to Officers and Directors/Trustees:

Certain Officers and Directors of the Advisor are also Officers and Directors of the Fund; however, such Officers and Directors (with the exception of the Chief Compliance Officer ("CCO")) receive no compensation from the Fund. For the year ended October 31, 2023, the total related amount paid by the Fund to the CCO was \$177 (in thousands). The total related amounts paid by each of the Portfolios are included in Other Expenses on the Statements of Operations.

### D. Deferred Compensation:

As of October 31, 2023, the total liability for deferred compensation to Directors is included in Accrued Expenses and Other Liabilities on the Statements of Assets and Liabilities as follows (amounts in thousands):

Large Cap International Portfolio	\$ 32

### F. Federal Income Taxes:

Each Portfolio has qualified and intends to continue to qualify as a regulated investment company under Subchapter M of the Internal Revenue Code for federal income tax purposes and to distribute substantially all of its taxable income and net capital gains to its shareholders. Accordingly, no provision has been made for federal income taxes.

Distributions from net investment income and net realized capital gains are determined in accordance with U.S. federal income tax regulations, which may differ from those amounts determined under GAAP. These book/tax differences are either temporary or permanent in nature. To the extent that these differences are permanent, they are charged or credited to paid-in capital or distributable earnings, undistributed net investment income, accumulated net realized gains or losses, or unrealized appreciation, as appropriate, in the period that the differences arise. Accordingly, the permanent differences as of October 31, 2023, can occur as a result of realized gains on securities considered to be "passive foreign investment companies," non-deductible expenses, realized foreign capital gains tax, the use of accumulated earnings and profits distributed to shareholders on redemptions of shares as part of the dividends paid deduction for income tax purposes, net foreign currency gains/losses, distributions received from real estate investment trusts and distribution redesignations, and were reclassified to the accounts mentioned above. These reclassifications had no effect on net assets or net asset value per share.

The tax character of dividends and distributions declared and paid during the years ended October 31, 2022, and October 31, 2023, were as follows (amounts in thousands):

The difference between GAAP-basis and tax-basis unrealized gains (losses) can occur as a result of wash sales and net mark-to-market gains (losses) on regulated futures contracts, net mark-to-market gains (losses) on foreign currency contracts, and differences in the tax treatment of passive foreign investment company investments or other investments.

ASC 740 Accounting for Uncertainty in Income Taxes sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Management has analyzed the Portfolios' tax positions and has concluded that no additional provision for income tax is required in the Portfolios' financial statements. The Portfolios are not aware of any tax positions for which it is more likely than not that the total amounts of unrecognized tax benefits will significantly change in the next twelve months. The Portfolios' federal tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service.

#### G. Financial Instruments:

In accordance with the Portfolios' investment objectives and policies, the Portfolios may invest either directly or indirectly (through their investments in corresponding Master/Underlying Funds), in certain financial instruments that have off-balance sheet risk in excess of the amounts recognized in the financial statements and concentrations of credit and market risk. These instruments and their significant corresponding risks are described below:

1. Foreign Market Risks: Investments in foreign markets may involve certain considerations and risks not typically associated with investments in the United States of America, including the possibility of future political and economic developments and the level of foreign governmental supervision and regulation of foreign securities markets. These markets are generally smaller, less liquid and more volatile than the major securities markets in the United States of America. Consequently, acquisition and disposition of international securities held by the Portfolios may be inhibited.

Portfolio's Master Fund that concentrates investments in the United Kingdom, can be expected to be impacted by the political and economic conditions within such countries. For example, there is continuing uncertainty around the future of the euro and the European Union (EU) following the United Kingdom's (UK) exit from the EU (referred to as "Brexit"). Brexit may cause greater market volatility and illiquidity, currency fluctuations, deterioration in economic activity, a decrease in business confidence, and increased likelihood of a recession in the UK. While it is not possible to determine the precise impact these events may have on the Portfolios, the ultimate impact on the UK, EU countries, other countries or parties that transact with the UK and EU, and the broader global economy could be significant and could adversely affect the value and liquidity of the Portfolios' investments.

### **Derivative Financial Instruments:**

Summarized below are the specific types of derivative instruments used by the Portfolios.

- 2. Forward Currency Contracts: The Portfolios listed below may enter into foreign currency exchange transactions, including foreign currency forward contracts, in connection with the settlement of foreign securities or to transfer cash balances from one currency to another currency. The Selectively Hedged Global Equity Portfolio may hedge some or all of the currency exposure of its foreign securities by entering into forward currency contracts. The decision to hedge the Selectively Hedged Global Equity Portfolio's currency exposure with respect to a foreign market will be based primarily on the Portfolio's existing exposure to a given foreign currency. Each contract is valued daily and the change in value is recorded by the Portfolio as an unrealized gain or loss, which is presented in the Statements of Operations as the change in unrealized appreciation or depreciation of forward currency contracts. When the contract is closed or offset with the same counterparty, the Portfolio records a realized gain or loss equal to the change in the value of the contract when it was opened and the value at the time it was closed or offset. This is presented in the Statements of Operations as a net realized gain or loss on forward currency contracts. Risks may arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of foreign currency relative to the U.S. dollar.
- 3. Futures Contracts: Each Portfolio listed below may purchase or sell futures contracts and options on futures contracts for equity securities and indices to increase or decrease market exposure based on actual or expected cash inflows to or outflows from the Portfolio. The Selectively Hedged Global Equity Portfolio may also use futures contracts to hedge some or all of the currency exposure of its foreign securities. Upon entering into a futures contract, the Portfolios deposit cash or pledge U.S. Government securities to a broker in an amount equal to the minimum "initial margin" requirements of the exchange on which the contract is traded. Subsequent payments are received from or paid to the broker each day, based on the daily fluctuation in the market value of the contract. These receipts or payments are known as "variation margin" and are recorded daily by the Portfolios as unrealized gains or losses until the contracts are closed. When the contracts are closed, the Portfolios record a realized gain or loss, which is presented in the Statements of Operations as a net realized gain or loss on futures, equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

Risks may arise upon entrance into futures contracts from potential imperfect price correlations between the futures contracts and the underlying securities, from the possibility of an illiquid secondary market for these instruments and from the possibility that the Portfolio could lose more than the initial margin requirements. A Portfolio entering into stock index futures is subject to equity price risk from those futures contracts.

Securities have been segregated as collateral for open futures contracts.

The average volume (based on the open positions at each fiscal month-end) of derivative activity for the year ended October 31, 2023 was as follows (amounts in thousands):

### Offsetting of Derivative Assets and Derivative Liabilities:

In order to better define its contractual rights and to secure rights that will help a Portfolio mitigate its counterparty risk, the Fund on behalf of applicable Portfolios entered into an International Swaps and Derivatives Association, Inc. Master Agreement (ISDA Master Agreement) or a similar agreement with certain of its derivative contract counterparties. An ISDA Master Agreement is a bilateral agreement between the Fund, on behalf of a Portfolio, and a counterparty that governs over-the-counter (OTC) derivatives and forward currency contracts and typically contains, among other things, provisions in the event of a default and/or termination event and may also include collateral posting items. Under an ISDA Master Agreement, a Portfolio may, under certain circumstances, offset with the counterparty certain derivative financial instruments' payables and/or receivables with collateral held and/or posted, if any, and create one single net payment. The provisions of the ISDA Master Agreement typically permit a single net payment in the event of a default (close-out), including the bankruptcy or insolvency of the counterparty. However, bankruptcy or insolvency laws of a particular jurisdiction may impose restrictions on or prohibitions against the right of offset in bankruptcy, insolvency, or other events.

For financial reporting purposes, the Portfolios do not offset derivative assets and derivative liabilities that are subject to netting arrangements in the Statements of Assets and Liabilities.

The following table presents the Portfolios' gross and net amount of assets and liabilities available for offset under netting arrangements as well as any related collateral received or pledged by the Portfolios as of October 31, 2023 (amounts in thousands):

		Net Amounts of Assets Presented	Of Statem	Amounts fset in the ents of As d Liabilities	sets			Net Amounts of Liabilities Presented	Of Statem	Amounts ffset in the nents of As d Liabilitie	sets

- (a) No amounts have been netted against the gross amounts recognized in the Statements of Assets and Liabilities.
- (b) Represents the amount of assets that could be offset by liabilities with the same counterparty under master netting or similar agreements that management elects not to offset on the Statements of Assets and Liabilities.
- (c) Represents the net amount due from counterparties in the event of default.
- (d) Represents the amount of liabilities that could be offset by assets with the same counterparty under master netting or similar agreements that management elects not to offset on the Statements of Assets and Liabilities.
- (e) Represents the net amount due to counterparties in the event of default.

### H. Line of Credit and Interfund Lending Program:

The Fund, together with other Dimensional-advised portfolios, has entered into a \$500 million uncommitted, unsecured discretionary line of credit effective April 5, 2023, with its domestic custodian bank. A line of credit with similar terms was in effect through April 5, 2023. Each portfolio is permitted to borrow, subject to its investment limitations, up to a maximum of \$250 million, as long as total borrowings under the line of credit do not exceed \$500 million in the aggregate. Borrowings under the line of credit are charged interest at rates agreed upon by the parties at the time of borrowing. Each portfolio is individually, and not jointly, liable for its particular advances under the line of credit. There is no commitment fee on the unused portion of the line of credit. The agreement for the discretionary line of credit may be terminated by either party at any time. The agreement for the line of credit expires on April 3, 2024.

The Fund, together with other Dimensional-advised portfolios, has also entered into an additional \$700 million unsecured line of credit with its international custodian bank effective December 28, 2022. A line of credit with similar terms was in effect through December 28, 2022. Each portfolio is permitted to borrow, subject to its investment limitations, up to the lower of one-quarter of such portfolio's net assets or \$500 million, as long as total borrowings under the line of credit do not exceed \$700 million in the aggregate. Each portfolio is individually, and not jointly, liable for its particular advances under the line of credit. Borrowings under the line of credit are charged interest at rates agreed upon by the parties at the time of borrowing. There is no commitment fee on the unused portion of the line of credit. The line of credit agreement expires on December 27, 2023.

For the year ended October 31, 2023, borrowings by the following Portfolios under the lines of credit were as follows (amounts in thousands, except percentages and days):

	Weighted Average Interest Rate	Weighted Average Loan Balance	Number of Days Outstanding*	Interest Expense Incurred	Maximum Amount Borrowed During the Period	Outstanding Borrowings as of 10/31/2023

<sup>\*</sup> Number of Days Outstanding represents the total of single or consecutive days during the year ended October 31, 2023, that each Portfolio's available line of credit was used.

Pursuant to an exemptive order issued by the SEC (the "Order"), the Portfolios may participate in an interfund lending program among certain portfolios managed by the Advisor (portfolios that operate as feeder funds do not participate in the program). The program allows the participating portfolios to borrow money from and loan money to each other for temporary or emergency purposes, subject to the conditions in the Order. A loan can only be made through the program if the interfund loan rate on that day is more favorable to both the borrowing and lending portfolios as compared to rates available through short-term bank loans or investments in overnight repurchase agreements and money market funds, respectively, as detailed in the Order. Further, a portfolio may participate in the program only if and to the extent that such participation is consistent with its investment objectives and limitations. Interfund loans have a maximum duration of seven days and may be called on one business day's notice.

For the year ended October 31, 2023, activity by the Portfolios under the interfund lending program was as follows (amounts in thousands, except percentages and days):

	Borrower or Lender	Weighted Average Interest Rate	Weighted Average Loan Balance	Number of Days Outstanding1	Interest Expense/ Income	Maximum Amount Borrowed/Loaned During the Period	Outstanding Borrowings as of 10/31/2023
DFA International Real Estate Securities

Portfolio	Borrower	4.69%	24,627	5	16	39,932	_

<sup>1</sup> Number of Days Outstanding represents the total of single or consecutive days during the year ended October 31, 2023 that each Portfolio utilized the interfund lending program.

#### I. Affiliated Trades:

Cross trades for the year ended October 31, 2023, if any, were executed by the Portfolios pursuant to procedures adopted by the Board of Directors of the Fund to ensure compliance with Rule 17a-7 under the 1940 Act. Cross trading is the buying or selling of portfolio securities between series of investment companies, or between a series of an investment company and another entity, that are or could be considered affiliates by virtue of having a common investment advisor (or affiliated investment advisors), common Directors and/or common Officers. At its regularly scheduled meetings, the CCO certifies to the Board that the 17a-7 transactions entered into by the Portfolios complied with the Rule 17a-7 Procedures adopted by the Board of Directors of the Fund.

For the year ended October 31, 2023, cross trades by the Portfolios under Rule 17a-7 were as follows (amounts in thousands):

Portfolio	Purchases	Sales	Realized Gain (Loss)
Large Cap International Portfolio	\$ 75,525	\$ 71,801	\$(18,402)
International Core Equity Portfolio	162,646	251,668	(57,350)

Emerging Markets Targeted Value Portfolio	417	526	18
Emerging Markets ex China Core Equity Portfolio	913	390	(67)

### J. Securities Lending:

As of October 31, 2023, some of the Portfolios had securities on loan to brokers/dealers, for which each such Portfolio received cash collateral. The Portfolios also received non-cash collateral consisting of short- and/or long-term U.S. Treasuries and U.S. government agency securities as follows (amounts in thousands):

	Non-Cash Collateral Market Value
Large Cap International Portfolio	\$ 50,017
International Core Equity Portfolio	341,835
DFA International Real Estate Securities Portfolio	51,460
DFA International Small Cap Value Portfolio	86,972
International Vector Equity Portfolio	43,888
International High Relative Profitability Portfolio	13,516
World ex U.S. Core Equity Portfolio	54,769
World ex U.S. Targeted Value Portfolio	10,475
Emerging Markets Core Equity Portfolio	902,075
Emerging Markets Targeted Value Portfolio	4,752
Emerging Markets ex China Core Equity Portfolio	8,084

Each Portfolio invests the cash collateral, as described below, and records a liability for the return of the collateral, during the period the securities are on loan. Loans of securities are expected at all times to be secured by collateral in an amount (i) equal to at least 100% of the current market value of the loaned securities with respect to securities of the U.S. government or its agencies, (ii) generally equal to 102% of the current market value of the loaned securities with respect to U.S. securities, and (iii) generally equal to 105% of the current market value of the loaned securities with respect to foreign securities. However, daily market fluctuations could cause the Portfolio's collateral to be lower or higher than the expected thresholds. If this were to occur, the collateral would be adjusted the next business day to ensure adequate collateralization. In the event of default or bankruptcy by the other party to the agreement, realization and/or retention of the collateral may be subject to legal proceedings. If the borrower fails to return loaned securities, cash collateral being maintained by the borrower is insufficient to cover the value of loaned securities, and such collateral insufficiency is not the result of investment losses, the lending agent has agreed to pay the amount of the shortfall to the Portfolio or, at the option of the lending agent, to replace the securities. In the event of the bankruptcy of the borrower, a Portfolio could experience delay in recovering the loaned securities or only recover cash or a security of equivalent value.

Subject to their stated investment policies, each Portfolio with securities on loan will generally invest the cash collateral received for the loaned securities in the Money Market Series, an affiliated registered money market fund advised by the Advisor for which the Advisor receives a management fee of 0.05% of the average daily net assets of the Money Market Series. Income received from the Money Market Series is netted with fees for securities lending and collateral investment expenses and with other payments to and from borrowers of securities. Each Portfolio also may invest the cash collateral received for the loaned securities in securities of the U.S. government or its agencies, repurchase agreements collateralized by securities of the U.S. government or its agencies, and affiliated or unaffiliated money market funds that are registered or unregistered. For purposes of this paragraph, agencies include both agency debentures and agency mortgage-backed securities. Additionally, each Portfolio will be able to terminate the loan at any time and will receive reasonable interest on the loan, as well as amounts equal to any dividends, interest or, other distributions on the loaned securities. However, dividend income received from loaned securities may not be eligible for taxation at qualified dividend income rates.

The following table reflects a breakdown of transactions accounted for as secured borrowings, the gross obligation by the type of collateral pledged, and the remaining contractual maturity of those transactions as of October 31, 2023 (amounts in thousands):

### K. Shareholder Servicing Fees:

Common Stocks.....

On June 9, 2023, pursuant to a Plan of Recapitalization the Class R2 shares ("Class R shares") of the Emerging Markets Value Portfolio converted into Institutional Class shares of the Portfolio (the "Recapitalization"). As a result of the Recapitalization, shareholders holding Class R shares of the Portfolio received Institutional Class shares of the Portfolio in exchange for their Class R shares with an aggregate net asset value equal to the aggregate net asset value of the Class R shares so exchanged. The value of a shareholder's investment in the Portfolio was not impacted by the conversion; however, each shareholder received fewer Institutional Class shares than the number of Class R shares held at the time of the conversion because the Class R shares had a higher net asset value per share. Following the Recapitalization, the Class R shares of the Portfolio have ceased operations. See the Statements of Changes for activity related to the Recapitalization.

### L. Indemnitees; Contractual Obligations:

Under the Fund's organizational documents, its Officers and Directors are indemnified against certain liabilities arising out of the performance of their duties to the Fund.

In the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties that provide general indemnification. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund and/or its affiliates that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

### M. Recently Issued Accounting Standards and Regulations:

In March 2020, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2020-04, Reference Rate Reform (Topic 848) – Facilitation of the Effects of Reference Rate Reform on Financial Reporting. In January 2021, the FASB issued ASU No. 2021-01, with further amendments to Topic 848. The amendments in the ASUs provide optional temporary accounting recognition and financial reporting relief from the effect of certain types of contract modifications due to the planned discontinuation of the LIBOR and other interbank-offered based reference rates as of the end of 2021 and 2023. The ASUs were effective for certain reference rate-related contract modifications that occurred during the period March 12, 2020 through December 31, 2022. Management has reviewed the requirements and determined the adoption of these ASUs will not have a material impact on the Portfolios' financial statements.

In October 2022, the SEC adopted rule and form amendments requiring open-end management investment companies, including mutual funds and exchange-traded funds, to transmit concise and visually engaging semi-annual and annual reports that highlight key information, including fund expenses, performance, and holdings to shareholders. Other information, including financial statements, will no longer appear in the Portfolios' shareholder reports but will be available online, delivered free of charge upon request, and filed on a semi-annual basis on Form N-CSR. The rule and form amendments have a compliance date of July 24, 2024. Accordingly, the rule and form amendments will not impact the Portfolios' until the 2024 annual shareholder reports, and will have no effect on the Portfolios' accounting policies or financial statements.

### N. Other:

As of October 31, 2023, the following number of shareholders held the following approximate percentages of the Portfolios' outstanding shares. One or more of the shareholders may be omnibus accounts, which typically hold shares for the benefit of several other underlying investors.

Annrovimate

Emerging Markets ex China Core Equity Portfolio	3	93%

The Portfolios are subject to claims and suits that arise from time to time in the ordinary course of business (for example, claw back litigation against former shareholders of portfolio companies that filed for bankruptcy, such as the now ended litigation involving The Tribune Company and the ongoing litigation involving Nine West). Although management currently believes that resolving claims against the Portfolios, individually or in aggregate, will not have a material adverse impact on the Portfolios' financial position, results of operations, or cash flows, these matters are subject to inherent uncertainties and management's view of these matters may change in the future.

### O. Subsequent Event Evaluations:

Management has evaluated the impact of all subsequent events on the Portfolios through the date on which the financial statements were issued and has determined that there are no subsequent events requiring recognition or disclosure in the financial statements.

### Report of Independent Registered Public Accounting Firm

To the Board of Directors of DFA Investment Dimensions Group Inc. and Shareholders of each of the twentyfour portfolios listed in the table below

### **Opinions on the Financial Statements**

We have audited the accompanying statements of assets and liabilities, including the summary schedules of portfolio holdings or schedules of investments, of each of the portfolios indicated in the table below (twenty-four of the portfolios constituting DFA Investment Dimensions Group Inc., hereafter collectively referred to as the "Portfolios") as of October 31, 2023, the related statements of operations and of changes in net assets for each of the periods indicated in the table below, including the related notes, and the financial highlights for each of the periods indicated in the table below (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Portfolios as of October 31, 2023, the results of each of their operations, the changes in each of their net assets, and each of the financial highlights for each of the periods indicated in the table below, in conformity with accounting principles generally accepted in the United States of America.

Portfolio	Statement of operations	Statement of changes in net assets	Financial highlights

### **Basis for Opinions**

These financial statements are the responsibility of the Portfolios' management. Our responsibility is to express an opinion on the Portfolios' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Portfolios in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of October 31, 2023 by correspondence with the custodians, brokers and transfer agent of the investee fund; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinions.

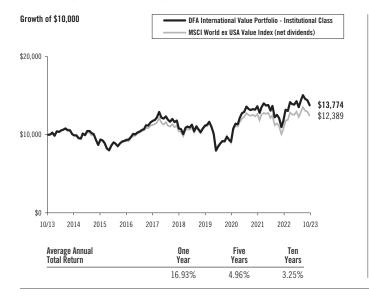

/s/PricewaterhouseCoopers LLP Philadelphia, Pennsylvania December 21, 2023

We have served as the auditor of one or more investment companies in Dimensional Fund Advisors L.P. investment company group since 1981.

### MANAGEMENT'S DISCUSSION AND ANALYSIS

### **International Equity Market Review**

### 12 Months Ended October 31, 2023

Performance of non-U.S. developed markets was positive for the period outperforming the US and emerging markets. As measured by the MSCI World ex USA indices, small-cap stocks underperformed large-cap stocks, and mid-cap stocks underperformed large-cap stocks but outperformed small-cap stocks. Value stocks outperformed growth stocks as measured by the MSCI World ex USA indices.

### Total Return for 12 Months Ended October 31, 2023

	Return in U.S. Dollars
MSCI World ex USA Index	12.56%
MSCI World ex USA Mid Cap Index (a subset of the large-cap universe)	9.62%
MSCI World ex USA Small Cap Index	5.66%
MSCI World ex USA Value Index	15.70%
MSCI World ex USA Growth Index	9.49%

For the 12 months ended October 31, 2023, the U.S. dollar appreciated against more than half of non-U.S. developed markets currencies. Overall, currency movements had a positive impact on the U.S. dollar-denominated returns of developed markets.

### Total Return for 12 Months Ended October 31, 2023

Ten Largest Foreign Developed Markets by Market Cap	Local Return	Return in U.S. Dollars
Japan	19.00%	16.79%
United Kingdom	7.11%	12.88%
Canada	0.51%	-1.24%
France	10.52%	18.19%
Switzerland	-2.37%	7.36%
Australia	4.89%	3.85%
Germany	10.73%	18.42%
Netherlands	11.07%	18.56%
Sweden	7.32%	6.14%
Denmark	31.92%	40.72%

For Portfolios investing in non-U.S. equities traded outside of the U.S. market time zone, differences in the valuation timing and methodology between a Portfolio and its benchmark index may impact relative performance over the referenced period. The Portfolios price foreign exchange rates at the closing of the U.S. market, while their benchmark indices use rates at 4 p.m. London time. The Portfolios also may use fair value pricing to price certain portfolio securities at the closing of the U.S. market, while benchmark indices may use local market closing prices. For the one-year period ended October 31, 2023, these differences generally contributed positively to non-US developed markets Portfolios' relative performance and were not material to emerging markets Portfolios' relative performance.

### **DFA International Value Portfolio**

The DFA International Value Portfolio invests in developed ex U.S. large company value stocks by purchasing shares of the DFA International Value Series, a Master Fund managed by Dimensional that invests in such securities. The Master Fund generally excludes real estate investment trusts (REITs) and highly regulated utilities. The investment strategy is process driven, emphasizing broad diversification,

with increased exposure to stocks with smaller total market capitalizations, lower relative price (value), and higher-profitability within the large-cap value segment of developed ex U.S. markets. As of October 31, 2023, the Master Fund held approximately 530 securities in 22 eligible developed markets. Average cash exposure throughout the year was less than 1% of the Master Fund's assets.

For the 12 months ended October 31, 2023, total returns were 16.93% for the Portfolio and 15.70% for the MSCI World ex USA Value Index, the Portfolio's benchmark. With value stocks outperforming growth stocks, the Master Fund's focus on value stocks contributed positively to performance relative to the benchmark. The Master Fund's exclusion of REITs also contributed positively to relative performance, as REITs generally underperformed.

## DIMENSIONAL INVESTMENT GROUP INC. DISCLOSURE OF FUND EXPENSES

(Unaudited)

The following Expense Table is shown so that you can understand the impact of fees on your investment. All mutual funds have operating expenses. As a shareholder of the fund, you incur ongoing costs, which include costs for portfolio management, administrative services, and shareholder reports, among others. Operating expenses and legal and audit services, which are deducted from a fund's gross income, directly reduce the investment return of the fund. A fund's expenses are expressed as a percentage of its average net assets. This figure is known as the expense ratio. The following examples are intended to help you understand the ongoing costs, in dollars, of investing in the fund and to compare these costs with those of other mutual funds. The examples are based on an investment of \$1,000 made at the beginning of the period shown and held for the entire period.

The Expense Table below illustrates your fund's costs in two ways.

### **Actual Fund Return**

This section helps you to estimate the actual expenses after fee waivers that you paid over the period. The "Ending Account Value" shown is derived from the fund's actual return, and "Expenses Paid During Period" reflects the dollar amount that would have been paid by an investor who started with \$1,000 in the fund. You may use the information here, together with the amount you invested, to estimate the expenses that you paid over the period.

To do so, simply divide your account value by \$1,000 (for example, a \$7,500 account value divided by \$1,000 = 7.5), then multiply the result by the number given for your fund under the heading "Expenses Paid During Period."

### Hypothetical Example for Comparison Purposes

This section is intended to help you compare your fund's costs with those of other mutual funds. The hypothetical "Ending Account Value" and "Expenses Paid During Period" are derived from the fund's actual expense ratio and an assumed 5% annual return before expenses. In this case, because the return used is not the fund's actual return, the results do not apply to your investment. The example is useful in making comparisons because the SEC requires all mutual funds to calculate expenses based on a 5% annual return. You can assess your fund's costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight and help you compare ongoing costs only and do not reflect any transactional costs, if applicable. The "Annualized Expense Ratio" represents the actual expenses for the six-month period indicated.

Six Months Ended October 31, 2023

### **EXPENSE TABLE**

	Beginning Account Value 05/01/23	Ending Account Value 10/31/23	Annualized Expense Ratio (1)	Expenses Paid During Period (1)
DFA International Value Portfolio (2)				
Actual Fund Return		\$ 961.00	0.29%	\$1.43
Hypothetical 5% Annual Return	\$1,000.00	\$1,023.74	0.29%	\$1.48

<sup>(1)</sup> Expenses are equal to the fund's annualized expense ratio for the six-month period, multiplied by the average account value over the period, multiplied by the number of days in the most recent six-month period (184), then divided by the number of days in the year (365) to reflect the six-month period.

### DISCLOSURE OF FUND EXPENSES CONTINUED

# DIMENSIONAL INVESTMENT GROUP INC. DISCLOSURE OF PORTFOLIO HOLDINGS

(Unaudited)

The SEC requires that all funds file a complete Schedule of Investments with the SEC for their first and third fiscal quarters as an exhibit to their reports on Form N-PORT. For Dimensional Investment Group Inc., this would be for the fiscal quarters ending January 31 and July 31. Such Form N-PORT filing must be made within 60 days of the end of the quarter. Dimensional Investment Group Inc. filed its most recent Form N-PORT with the SEC on September 29, 2023. They are available upon request, without charge, by calling collect: (512) 306-7400; by mailing a request to Dimensional Fund Advisors LP, 6300 Bee Cave Road, Building One, Austin, TX 78746; or by visiting the SEC's website at http://www.sec.gov.

### **PORTFOLIO HOLDINGS**

The SEC requires that all funds present their categories of portfolio holdings in a table, chart, or graph format in their annual and semi-annual shareholder reports, whether or not a Schedule of Investments is used. The following table, which presents portfolio holdings as a percentage of total investments before short-term investments and collateral for loaned securities, is provided in compliance with this requirement.

The categories of industry classification for the Affiliated Investment Company are represented in its Disclosure of Portfolio Holdings, which is included elsewhere in the report. Refer to the Summary Schedule of Portfolio Holdings for the underlying Affiliated Investment Company's holdings, which reflect the investments by category.

# DIMENSIONAL INVESTMENT GROUP INC. NOTES TO FINANCIAL STATEMENTS

### A. Organization:

Dimensional Investment Group Inc. (the "Fund") is an open-end management investment company registered under the Investment Company Act of 1940 (the "1940 Act"), whose shares are generally offered to institutional investors, retirement plans and clients of registered investment advisors. The Fund consists of ten portfolios, one of which, the DFA International Value Portfolio (the "Portfolio"), is presented in this section of the report. The remaining operational portfolios are presented in separate reports. The Portfolio is an investment company, and accordingly, follows the accounting and reporting guidance under the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC"), Topic 946, "Financial Services-Investment Companies."

The Portfolio invests substantially all of its assets in The DFA International Value Series (the "Series"), a corresponding series of The DFA Investment Trust Company. As of October 31, 2023, the Portfolio owned 71% of the Series. The financial statements of the Series are included elsewhere in this report and should be read in conjunction with the financial statements of the Portfolio.

### **B. Significant Accounting Policies:**

The following significant accounting policies are in conformity with accounting principles generally accepted in the United States of America ("GAAP"). Such policies are consistently followed by the Fund in preparation of its financial statements. The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the fair value of investments, the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates, and those differences could be material.

- 1. Security Valuation: The Portfolio uses a fair value hierarchy, which prioritizes the inputs-to-valuation techniques used to measure fair value into three broad levels described below:
  - Level 1 inputs are quoted prices in active markets for identical securities (including equity securities, open-end investment companies, and futures contracts)
  - Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
  - Level 3 significant unobservable inputs (including the Portfolio's own assumptions in determining the fair value of investments)

The Portfolio's investment reflects its proportionate interests in the net assets of the Series. The valuation is classified as Level 1 in the hierarchy.

Securities for which no market quotations are readily available (including restricted securities), or for which market quotations have become unreliable, are valued in good faith at fair value in accordance with Rule 2a-5 under the 1940 Act pursuant to procedures approved by the Board of Directors of the Fund. Fair value pricing may also be used if events that have a significant effect on the value of an investment (as determined in the discretion of Dimensional Fund Advisors LP) occur before the net asset value of the Portfolio is calculated. When fair value pricing is used, the prices of securities used by the Portfolio may differ from the quoted or published prices for the same securities on their primary markets or exchanges. These securities are generally categorized as Level 2 or Level 3 in the hierarchy.

A summary of the inputs used to value the Portfolio's investments by each major security type, industry and/or country is disclosed previously in this note. A valuation hierarchy table has been included at the end of the Schedule of Investments. The methodology or inputs used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

2. Deferred Compensation Plan: Each eligible Director of the Fund may elect to participate in the Fee Deferral Plan for Independent Directors and Trustees (the "Plan"). Under the Plan, effective January 1, 2002, such Directors may defer payment of all or a portion of their total fees earned as a Director. These deferred amounts may be treated as though such amounts had been invested in shares of the following funds: the U.S. Large Cap Value Portfolio, U.S. Core Equity 1 Portfolio, U.S. Large Company Portfolio, U.S. Vector Equity Portfolio, U.S. Micro Cap Portfolio, DFA International Value Portfolio, International Core Equity Portfolio, Emerging Markets Portfolio, Emerging Markets Core Equity Portfolio, DFA Inflation-Protected Securities Portfolio, and/or DFA Two-Year Global Fixed Income Portfolio. Contributions made under the Plan and the change in unrealized appreciation (depreciation) and income are included in Directors'/ Trustees' Fees & Expenses.

The Directors may receive their distributions of proceeds by one of the following methods: lump sum, annual installments over a period of agreed-upon years, or quarterly installments over a period of agreed-upon years. Each Director shall have the right in a notice of election (the "Notice") to defer the receipt of the Director's deferred compensation until a date specified by such Director in the Notice. The date may not be sooner than the earlier of: (i) the first business day of January following the year in which such Director ceases to be a member of the Board of Directors of the Fund; and (ii) five years following the effective date of the Director's first deferral election. If a Director who elects to defer fees fails to designate in the Notice a time or date as of which payment of the Director's deferred fee account shall commence, payment of such amount shall commence as of the first business day of January following the year in which the Director ceases to be a member of the Board (unless the Director files an amended Notice selecting a different distribution date).

3. Other. The Portfolio recognizes its pro-rata share, on a daily basis, of net investment income and realized and unrealized gains and losses of investment securities from the Series, which is treated as a partnership for federal income tax purposes. Dividend income and distributions to shareholders are recorded on the ex-dividend date. Non-cash dividend income received in the form of securities in-lieu of cash, if any, are recorded at the fair value of securities received. Distributions received on securities that represent a return of capital or capital gains are recorded as a reduction of cost of investments or as a realized gain, respectively. The Portfolio estimates the character of received distributions that may be considered return of capital distributions. Expenses directly attributable to the Portfolio are directly charged. Common expenses of the Fund or the Portfolio are allocated using methods approved by the Board of Directors, generally based on average net assets.

### C. Investment Advisor:

The Advisor, Dimensional Fund Advisors LP, provides investment management services to the Portfolio. For the year ended October 31, 2023, the Portfolio's investment management fees were accrued daily and paid monthly to the Advisor based on the following effective annual rate of average daily net assets:

DFA International Value Portfolio	.25%
-----------------------------------	------

Pursuant to an Amended and Restated Fee Waiver Agreement (the "Fee Waiver Agreement"), the Advisor has contractually agreed to permanently waive all or a portion of the management fee of the Portfolio to the extent necessary to limit the total management fees paid to the Advisor by the Portfolio, as described in the notes below. The Fee Waiver Agreement will remain in effect permanently, unless terminated by the Fund's Board of Directors. During the year ended October 31, 2023, the Portfolio had a total management fee limit based on a percentage of its average net assets on an annualized basis and waived fees (amount in thousands) as reflected below.

Institutional Class Shares	Total Management Fee Limit	Recovery of Previously Waived Fees/ Expenses Assumed	Net Waived Fees	Waived Fees/ Expenses Assumed Subject to Future Recovery
DFA International Value Portfolio (1)	0.25%	_	\$17,188	_

<sup>(1)</sup> Effective February 28, 2022, the Advisor has contractually agreed to permanently waive all or a portion of the management fee of the Portfolio to the extent necessary to limit the total management fees paid to the Advisor by the Portfolio, including the proportionate share of the

management fees the Portfolio pays indirectly through its investment in other funds managed by the Advisor, except for the fees paid indirectly through its investment of securities lending cash collateral in The DFA Short Term Investment Fund, to the rate listed above as a percentage of the average net assets of the Institutional Class of the Portfolio on an annualized basis (the "Permanent Fee Waiver"). From February 28, 2021 to February 27, 2022, the Permanent Fee Waiver Limit was 0.30%. From February 28, 2020 to February 27, 2021, the Permanent Fee Waiver Limit was 0.35%. From July 21, 2015 to February 27, 2020, the Permanent Fee Waiver Limit was 0.40%.

### Fees Paid to Officers and Directors/Trustees:

Certain Officers and Directors of the Advisor are also Officers and Directors of the Fund; however, such Officers and Directors (with the exception of the Chief Compliance Officer ("CCO")) receive no compensation from the Fund. For the year ended October 31, 2023, the total related amounts paid by the Fund to the CCO were \$18 (in thousands). The total related amounts paid by the Portfolio are included in Other Expenses on the Statement of Operations.

### D. Deferred Compensation:

As of October 31, 2023, the total liability for deferred compensation to Directors is included in Accrued Expenses and Other Liabilities on the Statement of Assets and Liabilities as follows (amount in thousands):

DFA International Value Portfolio......\$113

### E. Federal Income Taxes:

The Portfolio has qualified and intends to continue to qualify as a regulated investment company under Subchapter M of the Internal Revenue Code for federal income tax purposes and to distribute substantially all of its taxable income and net capital gains to its shareholders. Accordingly, no provision has been made for federal income taxes.

Distributions from net investment income and net realized capital gains are determined in accordance with U.S. federal income tax regulations, which may differ from those amounts determined under GAAP. These book/tax differences are either temporary or permanent in nature. To the extent that these differences are permanent, they are charged or credited to paid-in capital or distributable earnings, undistributed net investment income, accumulated net realized gains or losses, or unrealized appreciation, as appropriate, in the period that the differences arise. Accordingly, the permanent differences as of October 31, 2023, can occur as a result of realized gains on securities considered to be "passive foreign investment companies", non-deductible expenses, realized foreign capital gains tax, the use of accumulated earnings and profits distributed to shareholders on redemptions of shares as part of the dividends paid deduction for income tax purposes, net foreign currency gains/losses, distributions received from real estate investment trusts and distribution redesignations, and were reclassified to the accounts mentioned above.

The tax character of dividends and distributions declared and paid during the years ended October 31, 2022, and October 31, 2023, were as follows (amounts in thousands):

	Income and Short-Term Capital Gains	Long-Term Capital Gains	Tax Exempt Income	Total
DFA International Value Portfolio				
2022	\$402,701	_	_	\$402,701
2023	351,443	_	_	351,443

As of October 31, 2023, the following net investment income and short-term capital gains and long-term capital gains distributions designated for federal income tax purposes are due to the use of accumulated earnings and profits distributed to shareholders upon redemption of shares (amounts in thousands):

	Net Investment Income and Short-Term	Long-Term	
	Capital Gains	Capital Gains	Total
DFA International Value Portfolio	\$(14,751)	_	\$(14,751)

As of October 31, 2023, the components of distributable earnings (accumulated losses) were as follows (amounts in thousands):

	Undistributed Net Investment Income and Short-Term Capital Gains	Undistributed Long-Term Capital Gains	Capital Loss Carryforwards	Unrealized Appreciation (Depreciation)	Total Net Distributable Earnings (Accumulated Losses)
DFA International Value Portfolio	\$87,620	_	\$(94,697)	\$396,246	\$389,169

For federal income tax purposes, the Fund measures its capital loss carryforwards annually at October 31, its fiscal year end. Capital loss carryforwards may be carried forward and applied against future capital gains. As of October 31, 2023, the Portfolio had the following capital loss carryforwards available to offset future realized capital gains with no expiration date (amounts in thousands):

	Unlimited	Total
DFA International Value Portfolio	\$94,697	\$94,697

During the year ended October 31, 2023, the Portfolio did not use capital loss carryforwards to offset realized capital gains for federal income tax purposes.

As of October 31, 2023, the total cost and aggregate gross unrealized appreciation (depreciation) of securities for federal income tax purposes were different from amounts reported for financial reporting purposes, as follows (amounts in thousands):

	Federal Tax Cost	Unrealized Appreciation	Unrealized (Depreciation)	Net Unrealized Appreciation (Depreciation)
DFA International Value Portfolio	\$7.847.044	\$538.964	\$(142,718)	\$396,246

The difference between GAAP-basis and tax-basis unrealized gains (losses) can occur as a result of wash sales and net mark-to-market gains (losses) on regulated futures contracts, net mark-to-market gains (losses) on foreign currency contracts, and differences in the tax treatment of passive foreign investment company investments or other investments.

ASC 740 Accounting for Uncertainty in Income Taxes sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Management has analyzed the Portfolio's tax positions and has concluded that no additional provision for income tax is required in the Portfolio's financial statements. The Portfolio is not aware of any tax positions for which it is more likely than not that the total amounts of unrecognized tax benefits will significantly change in the next twelve months. The Portfolio's federal tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service.

### F. Shareholder Servicing Fees:

On June 9, 2023, pursuant to a Plan of Recapitalization the Class R2 ("Class R shares") shares of the DFA International Value Portfolio converted into Institutional Class shares of the Portfolio (the "Recapitalization"). As a result of the Recapitalization, shareholders holding Class R shares of the Portfolio received Institutional Class shares

of the Portfolio in exchange for their Class R shares with an aggregate net asset value equal to the aggregate net asset value of the Class R shares so exchanged. The value of a shareholder's investment in the Portfolio was not impacted by the conversion; however, each shareholder received fewer Institutional Class shares than the number of Class R shares held at the time of the conversion because the Class R shares had a higher net asset value per share. Following the Recapitalization, the Class R shares of the Portfolio have ceased operations. See the Statements of Changes for activity related to the Recapitalization.

### G. Indemnitees; Contractual Obligations:

Under the Fund's organizational documents, its Officers and Directors are indemnified against certain liabilities arising out of the performance of their duties to the Fund.

In the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties that provide general indemnification. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund and/or its affiliates that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

### H. Recently Issued Accounting Standards and Regulations:

In March 2020, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2020-04, Reference Rate Reform (Topic 848) – Facilitation of the Effects of Reference Rate Reform on Financial Reporting. In January 2021, the FASB issued ASU No. 2021-01, with further amendments to Topic 848. The amendments in the ASUs provide optional temporary accounting recognition and financial reporting relief from the effect of certain types of contract modifications due to the planned discontinuation of the LIBOR and other interbank-offered based reference rates as of the end of 2021 and 2023. The ASUs were effective for certain reference rate-related contract modifications that occurred during the period March 12, 2020 through December 31, 2022. Management has reviewed the requirements and determined the adoption of these ASUs will not have a material impact on the Portfolio's financial statements.

In October 2022, the SEC adopted rule and form amendments requiring open-end management investment companies, including mutual funds and exchange-traded funds, to transmit concise and visually engaging semi-annual and annual reports that highlight key information, including fund expenses, performance, and holdings to shareholders. Other information, including financial statements, will no longer appear in the Portfolio's shareholder reports but will be available online, delivered free of charge upon request, and filed on a semi-annual basis on Form N-CSR. The rule and form amendments have a compliance date of July 24, 2024. Accordingly, the rule and form amendments will not impact the Portfolio until the 2024 annual shareholder reports, and will have no effect on the Portfolio's accounting policies or financial statements.

### I. Other:

As of October 31, 2023, the following number of shareholders held the following approximate percentages of the Portfolio's outstanding shares. One or more of the shareholders may be omnibus accounts, which typically hold shares for the benefit of several other underlying investors.

	Number of Shareholders	Percentage of Outstanding Shares
DFA International Value Portfolio	3	70%

The Portfolio is subject to claims and suits that arise from time to time in the ordinary course of business (for example, claw back litigation against former shareholders of portfolio companies that filed for bankruptcy, such as the now ended litigation involving The Tribune Company and the ongoing litigation involving Nine West). Although management currently believes that resolving claims against the Portfolio, individually or in aggregate, will not have a material adverse impact on the Portfolio's financial position, results of operations, or cash flows, these matters are subject to inherent uncertainties and management's view of these matters may change in the future.

### J. Subsequent Event Evaluations:

Management has evaluated the impact of all subsequent events on the Portfolio through the date on which the financial statements were issued and has determined that there are no subsequent events requiring recognition or disclosure in the financial statements.

### Report of Independent Registered Public Accounting Firm

To the Board of Directors of Dimensional Investment Group Inc. and Shareholders of DFA International Value Portfolio

### Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of DFA International Value Portfolio (one of the portfolios constituting Dimensional Investment Group Inc., referred to hereafter as the "Portfolio") as of October 31, 2023, the related statement of operations for the year ended October 31, 2023, the statement of changes in net assets for each of the two years in the period ended October 31, 2023, including the related notes, and the financial highlights for each of the five years in the period ended October 31, 2023 (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Portfolio as of October 31, 2023, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period ended October 31, 2023 and the financial highlights for each of the five years in the period ended October 31, 2023 in conformity with accounting principles generally accepted in the United States of America.

### **Basis for Opinion**

These financial statements are the responsibility of the Portfolio's management. Our responsibility is to express an opinion on the Portfolio's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Portfolio in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of the security owned as of October 31, 2023 by correspondence with the transfer agent of the investee fund. We believe that our audits provide a reasonable basis for our opinion.

### MANAGEMENT'S DISCUSSION AND ANALYSIS

### **International Equity Market Review**

### 12 Months Ended October 31, 2023

Performance of non-U.S. developed markets was positive for the period outperforming the US and emerging markets. As measured by the MSCI World ex USA indices, small-cap stocks underperformed large-cap stocks, and mid-cap stocks underperformed large-cap stocks but outperformed small-cap stocks. Value stocks outperformed growth stocks as measured by the MSCI World ex USA indices.

### Total Return for 12 Months Ended October 31, 2023

	Return in U.S. Dollars
MSCI World ex USA Index	12.56%
MSCI World ex USA Mid Cap Index (a subset of the large-cap universe)	9.62%
MSCI World ex USA Small Cap Index	5.66%
MSCI World ex USA Value Index	15.70%
MSCI World ex USA Growth Index	9.49%

For the 12 months ended October 31, 2023, the U.S. dollar appreciated against more than half of non-U.S. developed markets currencies. Overall, currency movements had a positive impact on the U.S. dollar-denominated returns of developed markets.

### Total Return for 12 Months Ended October 31, 2023

Ten Largest Foreign Developed Markets by Market Cap	Local Return	Return in U.S. Dollars
Japan	19.00%	16.79%
United Kingdom	7.11%	12.88%
Canada	0.51%	-1.24%
France	10.52%	18.19%
Switzerland	-2.37%	7.36%
Australia	4.89%	3.85%
Germany	10.73%	18.42%
Netherlands	11.07%	18.56%
Sweden	7.32%	6.14%
Denmark	31.92%	40.72%

Emerging markets had positive performance for the period and outperformed U.S. markets while underperforming non-U.S. developed markets. As measured by the MSCI Emerging Markets indices, small-cap stocks outperformed large-cap stocks and mid-cap stocks. Value stocks outperformed growth stocks as measured by the MSCI Emerging Markets indices.

### Total Return for 12 Months Ended October 31, 2023

	keturn in U.S. Dollars
MSCI Emerging Markets Index	10.80%
MSCI Emerging Markets Mid Cap Index (a subset of the large-cap universe)	10.42%
MSCI Emerging Markets Small Cap Index	17.20%
MSCI Emerging Markets Value Index	13.43%
MSCI Emerging Markets Growth Index	. 8.33%

For the 12 months ended October 31, 2023, the U.S. dollar appreciated against more than half of emerging markets currencies. Overall, currency movements had a positive impact on the U.S. dollar denominated returns of emerging markets.

### Total Return for 12 Months Ended October 31, 2023

Ten Largest Emerging Markets by Market Cap	Local Return	Return in U.S.
<u>Dollars</u>		
China	20.83%	21.12%
India	4.76%	4.16%
Taiwan	27.06%	26.22%
Korea	2.72%	8.34%
Brazil	-1.84%	2.14%
Saudi Arabia	-11.52%	-11.38%
South Africa	3.73%	1.69%
Mexico	0.13%	10.10%
Indonesia	-5.51%	-7.22%
Thailand	-9.60%	-4.28%

For Portfolios investing in non-U.S. equities traded outside of the U.S. market time zone, differences in the valuation timing and methodology between a Portfolio and its benchmark index may impact relative performance over the referenced period. The Portfolios price foreign exchange rates at the closing of the U.S. market, while their benchmark indices use rates at 4 p.m. London time. The Portfolios also may use fair value pricing to price certain portfolio securities at the closing of the U.S. market, while benchmark indices may use local market closing prices. For the one-year period ended October 31, 2023, these differences generally contributed positively to non-US developed markets Portfolios' relative performance and were not material to emerging markets Portfolios' relative performance.

### The DFA International Value Series

The DFA International Value Series invests in developed ex U.S. large company value stocks. The Series generally excludes real estate investment trusts (REITs) and highly regulated utilities. The investment strategy is process driven, emphasizing broad diversification, with increased exposure to stocks with smaller total market capitalizations, lower relative price (value), and higher-profitability

within the large-cap value segment of developed ex U.S. markets. As of October 31, 2023, the Series held approximately 530 securities in 22 eligible developed markets. Average cash exposure throughout the year was less than 1% of the Series' assets.

For the 12 months ended October 31, 2023, total returns were 17.00% for the Series and 15.70% for the MSCI World ex USA Value Index, the Series' benchmark. With value stocks outperforming growth stocks, the Series' focus on value stocks contributed positively to performance relative to the benchmark. The Series' exclusion of REITs also contributed positively to relative performance, as REITs generally underperformed.

### The Japanese Small Company Series

The Japanese Small Company Series invests in Japanese small company stocks. The Series generally excludes stocks with the lowest profitability and highest relative price, certain companies with high asset growth, and real estate investment trusts (REITs). The investment strategy is process driven, emphasizing broad diversification. As of October 31, 2023, the Series held approximately 1,700 securities. Average cash exposure throughout the year was less than 1% of the Series' assets.

For the 12 months ended October 31, 2023, total returns were 18.71% for the Series and 13.35% for the MSCI Japan Small Cap Index (net dividends), the Series' benchmark. The Series' exclusion of stocks with the lowest profitability and highest relative price contributed positively to performance relative to the benchmark as those stocks underperformed. The Series' exclusion of REITs also contributed positively to relative performance, as REITs generally underperformed.

### The Asia Pacific Small Company Series

The Asia Pacific Small Company Series invests in small company stocks in Australia, Hong Kong, New Zealand, and Singapore. The Series generally excludes stocks with the lowest profitability and highest relative price, certain companies with high asset growth, and real estate investment trusts (REITs). The investment strategy is process driven, emphasizing broad diversification. As of October 31, 2023, the Series held approximately 790 securities in 4 eligible countries. Average cash exposure throughout the year was less than 1% of the Series' assets.

For the 12 months ended October 31, 2023, total returns were 0.60% for the Series and -2.12% for the MSCI Pacific ex Japan Small Cap Index (net dividends), the Series' benchmark. The Series' exclusion of stocks with the lowest profitability and highest relative price contributed positively to relative performance, as did the Series' exclusion of stocks with high asset growth, as those securities underperformed. The Series' exclusion of REITs also contributed positively to performance relative to the benchmark, as REITs generally underperformed.

### The United Kingdom Small Company Series

The United Kingdom Small Company Series invests in small company stocks in the U.K. The Series generally excludes stocks with the lowest profitability and highest relative price, certain companies with high asset growth, and real estate investment trusts (REITs). The investment strategy is process driven, emphasizing broad diversification. As of October 31, 2023, the Series held approximately 310 securities. Average cash exposure throughout the year was less than 1% of the Series' assets.

For the 12 months ended October 31, 2023, total returns were 9.20% for the Series and 5.16% for the MSCI United Kingdom Small Cap Index (net dividends), the Series' benchmark. The Series' exclusion of stocks with the lowest profitability and highest relative price contributed positively to

relative performance, as did the Series' exclusion of stocks with high asset growth, as those securities underperformed. The Series' exclusion of REITs also contributed positively to performance relative to the benchmark, as REITs generally underperformed.

### **The Continental Small Company Series**

The Continental Small Company Series invests in small company stocks in the developed markets of Europe (excluding the U.K.) and Israel. The Series generally excludes stocks with the lowest profitability and highest relative price, certain companies with high asset growth, and real estate investment trusts (REITs). The investment strategy is process driven, emphasizing broad diversification. As of October 31, 2023, the Series held approximately 1,140 securities in 15 eligible countries. Average cash exposure throughout the year was less than 1% of the Series' assets.

For the 12 months ended October 31, 2023, total returns were 11.76% for the Series and 8.05% for the MSCI Europe ex U.K. Small Cap Index (net dividends), the Series' benchmark. Differences in size definitions between the Series and the benchmark led to weight differences between countries, which contributed positively to performance relative to the benchmark. The Series' exclusion of stocks with the lowest profitability and highest relative price also contributed positively to relative performance, as did the Series' exclusion of stocks with high asset growth, as those securities underperformed for the year. Additionally, the Series' exclusion of REITs contributed positively to performance relative to the benchmark, as REITs generally underperformed.

### The Canadian Small Company Series

The Canadian Small Company Series invests in small company stocks in Canada. The Series generally excludes stocks with the lowest profitability and highest relative price, certain companies with high asset growth, and real estate investment trusts (REITs). The investment strategy is process-driven, emphasizing broad diversification. As of October 31, 2023, the Series held approximately 330 securities. Average cash exposure throughout the year was less than 1% of the Series' assets.

For the 12 months ended October 31, 2023, total returns were 3.53% for the Series and -1.25% for the MSCI Canada Small Cap Index (net dividends), the Series' benchmark. The Series' exclusion of stocks with the lowest profitability and highest relative price contributed positively to performance relative to the benchmark, as those securities underperformed. Additionally, the Series' exclusion of REITs also contributed positively to performance relative to the benchmark, as REITs generally underperformed.

### **The Emerging Markets Series**

The Emerging Markets Series invests in large-cap stocks in emerging markets. The Series generally excludes real estate investment trusts (REITs). The investment strategy is process driven, emphasizing broad diversification with increased exposure to stocks with smaller market capitalizations, lower relative price (value), and higher-profitability within the large-cap segment of emerging markets. As of October 31, 2023, the Series held approximately 1,840 securities in 24 eligible emerging markets. Average cash exposure throughout the year was less than 1% of the Series' assets.

For the 12 months ended October 31, 2023, total returns were 13.27% for the Series and 10.80% for the MSCI Emerging Markets Index (net dividends), the Series' benchmark. The Series' greater emphasis on value stocks contributed positively to performance relative to the benchmark, as value stocks outperformed growth stocks in emerging markets. The Series' emphasis on stocks with smaller

market capitalizations also contributed positively to relative performance, as these stocks outperformed. Additionally, the Series' emphasis on stocks with higher profitability contributed positively to performance relative to the benchmark, as these stocks generally outperformed.

### The Emerging Markets Small Cap Series

The Emerging Markets Small Cap Series invests in small company stocks in emerging markets. The Series generally excludes stocks with the lowest profitability and highest relative price, certain companies with high asset growth, and real estate investment trusts (REITs). The investment strategy is process driven, emphasizing broad diversification. As of October 31, 2023, the Series held approximately 4,830 securities in 21 eligible emerging markets. Average cash exposure throughout the year was less than 1% of the Series' assets.

For the 12 months ended October 31, 2023, total returns were 15.47% for the Series and 10.80% for the MSCI Emerging Markets Index (net dividends), the Series' benchmark. With small-cap stocks outperforming large-cap stocks in emerging markets, the Series' inclusion of stocks with smaller market capitalizations contributed positively to performance relative to the benchmark, which is composed primarily of large- and mid-cap stocks.

# THE DFA INVESTMENT TRUST COMPANY DISCLOSURE OF FUND EXPENSES

(Unaudited)

The following Expense Tables are shown so that you can understand the impact of fees on your investment. All mutual funds have operating expenses. As a shareholder of the fund, you incur ongoing costs, which include costs for portfolio management, administrative services, and shareholder reports, among others. Operating expenses and legal and audit services, which are deducted from a fund's gross income, directly reduce the investment return of the fund. A fund's expenses are expressed as a percentage of its average net assets. This figure is known as the expense ratio. The following examples are intended to help you understand the ongoing costs, in dollars, of investing in the fund and to compare these costs with those of other mutual funds. The examples are based on an investment of \$1,000 made at the beginning of the period shown and held for the entire period.

The Expense Tables below illustrate your fund's costs in two ways.

### **Actual Fund Return**

This section helps you to estimate the actual expenses after fee waivers that you paid over the period. The "Ending Account Value" shown is derived from the fund's actual return, and "Expenses Paid During Period" reflects the dollar amount that would have been paid by an investor who started with \$1,000 in the fund. You may use the information here, together with the amount you invested, to estimate the expenses that you paid over the period.

To do so, simply divide your account value by \$1,000 (for example, a \$7,500 account value divided by \$1,000 = 7.5), then multiply the result by the number given for your fund under the heading "Expenses Paid During Period."

### **Hypothetical Example for Comparison Purposes**

This section is intended to help you compare your fund's costs with those of other mutual funds. The hypothetical "Ending Account Value" and "Expenses Paid During Period" are derived from the fund's actual expense ratio and an assumed 5% annual return before expenses. In this case, because the return used is not the fund's actual return, the results do not apply to your investment. The example is useful in making comparisons because the SEC requires all mutual funds to calculate expenses based on a 5% annual return. You can assess your fund's costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

Please note that the expenses shown in the tables are meant to highlight and help you compare ongoing costs only and do not reflect any transactional costs, if applicable. The "Annualized Expense Ratio" represents the actual expenses for the six-month period indicated.

Six Months Ended October 31, 2023

<sup>(1)</sup> Expenses are equal to the fund's annualized expense ratio for the six-month period, multiplied by the average account value over the period, multiplied by the number of days in the most recent six-month period (184), then divided by the number of days in the year (365) to reflect the six-month period.

# THE DFA INVESTMENT TRUST COMPANY DISCLOSURE OF PORTFOLIO HOLDINGS

### (Unaudited)

The SEC requires that all funds file a complete Schedule of Investments with the SEC for their first and third fiscal quarters as an exhibit to their reports on Form N-PORT. For The DFA Investment Trust Company, this would be for the fiscal quarters ending January 31 and July 31. Such Form N-PORT filing must be made within 60 days of the end of the quarter. The DFA Investment Trust Company filed its most recent Form N-PORT with the SEC on September 29, 2023. They are available upon request, without charge, by calling collect: (512) 306-7400; by mailing a request to Dimensional Fund Advisors LP, 6300 Bee Cave Road, Building One, Austin, TX 78746; or by visiting the SEC's website at http://www.sec.gov.

SEC regulations permit a fund to include in its reports to shareholders a "Summary Schedule of Portfolio Holdings" in lieu of a full Schedule of Investments. The Summary Schedule of Portfolio Holdings reports the fund's 50 largest holdings in unaffiliated issuers and any investments that exceed one percent of the fund's net assets at the end of the reporting period. The regulations also require that the Summary Schedule of Portfolio Holdings identify each category of investments that are held.

A fund is required to file a complete Schedule of Investments with the SEC on Form N-CSR within ten days after mailing the annual and semi-annual reports to shareholders. It will be available upon request, without charge, by calling collect: (512) 306-7400; by mailing a request to Dimensional Fund Advisors LP, 6300 Bee Cave Road, Building One, Austin, TX 78746; or by visiting the SEC's website at http://www.sec.gov.

### **PORTFOLIO HOLDINGS**

The SEC requires that all funds present their categories of portfolio holdings in a table, chart, or graph format in their annual and semi-annual shareholder reports, whether or not a Schedule of Investments is used. The following table, which presents portfolio holdings as a percentage of total investments before short-term investments and collateral for loaned securities, is provided in compliance with this requirement. The categories shown below represent broad industry sectors. Each industry sector consists of one or more specific industry classifications.

# THE DFA INVESTMENT TRUST COMPANY NOTES TO FINANCIAL STATEMENTS

#### A. Organization:

The DFA Investment Trust Company (the "Trust") is an open-end management investment company registered under the Investment Company Act of 1940 (the "1940 Act"), The Trust consists of ten operational portfolios, eight of which, The DFA International Value Series, The Japanese Small Company Series, The Asia Pacific Small Company Series, The United Kingdom Small Company Series, The Continental Small Company Series, The Canadian Small Company Series, The Emerging Markets Series and The Emerging Markets Small Cap Series are included in this section of the report (collectively, the "Series"). The remaining operational portfolios are presented in separate reports. The Series are investment companies, and accordingly, follow the accounting and reporting guidance under the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC"), Topic 946, "Financial Services-Investment Companies."

#### **B. Significant Accounting Policies:**

The following significant accounting policies are in conformity with accounting principles generally accepted in the United States of America ("GAAP"). Such policies are consistently followed by the Trust in preparation of its financial statements. The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the fair value of investments, the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates, and those differences could be material.

- 1. Security Valuation: The Series use a fair value hierarchy, which prioritizes the inputs-to-valuation techniques used to measure fair value into three broad levels described below:
  - Level 1 inputs are quoted prices in active markets for identical securities (including equity securities, open-end investment companies, and futures contracts)
  - Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
  - Level 3 significant unobservable inputs (including the Series' own assumptions in determining the fair value of investments)

Securities held by the Series, including over-the-counter securities, are valued at the last quoted sale price of the day. International equity securities are subject to a fair value factor, as described later in this note. Securities held by the Series that are listed on Nasdaq are valued at the Nasdaq Official Closing Price ("NOCP"). If there is no last reported sale price or NOCP for the day, the Series value the securities at the mean between the most recent quoted bid and ask prices. Price information on listed securities is taken from the exchange where the security is primarily traded. Generally, securities issued by open-end management investment companies are valued using their respective net asset values or public offering prices, as appropriate, for purchase orders placed at the close of the New York Stock Exchange ("NYSE"). These securities are generally categorized as Level 1 in the hierarchy.

Securities for which no market quotations are readily available (including restricted securities), or for which market quotations have become unreliable, are valued in good faith at fair value in accordance with Rule 2a-5 under the 1940 Act pursuant to procedures approved by the Board of Trustees of the Trust. Fair value pricing may also be used if events that have a significant effect on the value of an investment (as determined in the discretion of Dimensional Fund Advisors LP) occur before the net asset value of the Series is calculated. When fair value pricing is used, the prices of securities used by the Series may differ from the quoted or published prices for the same securities on their primary markets or exchanges. These securities are generally categorized as Level 2 or Level 3 in the hierarchy.

The Series will also apply a fair value price in the circumstances described below. Generally, trading in foreign securities markets is completed each day at various times prior to the close of the NYSE. For example, trading in the Japanese securities markets is completed each day at the close of the Tokyo Stock Exchange (normally, 2:00 a.m. ET), which is fourteen hours before the close of the NYSE (normally, 4:00 p.m. ET) and the time that the net asset values of the Series are computed. Due to the time differences between the closings of the relevant foreign securities exchanges and the time the Series price their shares at the close of the NYSE, the Series will fair-value their foreign investments when it is determined that the market quotations for the foreign investments are either unreliable or not readily available. The fair value prices will attempt to reflect the impact of the U.S. financial markets' perceptions and trading activities on the Series' foreign investments since the last closing prices of the foreign investments were calculated on their primary foreign securities markets or exchanges. For these purposes, Dimensional Fund Advisors LP has determined that movements in relevant indices or other appropriate market indicators, after the close of the Tokyo Stock Exchange or the London Stock Exchange, demonstrate that market quotations may be unreliable. Fair valuation of portfolio securities may occur on a daily basis. The fair value pricing by the Series uses data furnished by an independent pricing service (and that data draws upon, among other information, the market values of foreign investments). When a Series uses fair value pricing, the values assigned to the Series' foreign investments may not be the quoted or published prices of the investments on their primary markets or exchanges. These securities are generally categorized as Level 2 in the hierarchy.

Futures contracts held by the Series are valued using the settlement price established each day on the exchange on which they are traded. These valuations are generally categorized as Level 1 in the hierarchy.

Over-the-counter derivative contracts, which include forward currency contracts, do not require material subjectivity as pricing inputs are observed from quoted markets and are categorized as Level 2 in the hierarchy.

A summary of the inputs used to value the Series' investments by each major security type, industry and/or country is disclosed previously in this note. Valuation hierarchy tables have been included at the end of the Summary Schedules of Portfolio Holdings. The methodology or inputs used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

2. Foreign Currency Translation: Securities and other assets and liabilities of the Series, whose values are initially expressed in foreign currencies are translated to U.S. dollars using the mean between the most recent bid and ask prices for the U.S. dollar as quoted by generally recognized reliable sources. To facilitate the translation, the Series enter into foreign currency contracts. A foreign currency contract is a spot agreement between two parties to buy and sell currencies at current market exchange rates, for settlement generally within two business days. Dividend and interest income and certain expenses are translated to U.S. dollars at the rate of exchange on their respective accrual dates. Receivables and payables denominated in foreign currencies are marked-to-market daily based on daily exchange rates and exchange gains or losses are realized upon ultimate receipt or disbursement.

The Series do not isolate the effect of foreign currency rate fluctuations when determining the realized gain or loss upon the sale or maturity of foreign currency-denominated debt obligations pursuant to U.S. Federal income tax regulations; such amounts are categorized as foreign exchange gain or loss for income tax reporting purposes.

Realized gains or losses on foreign currency transactions represent net foreign exchange gains or losses from the disposition of foreign currencies, currency gains or losses realized between the trade and settlement dates of securities transactions, and the difference between amounts of interest, dividends and any foreign withholding taxes recorded on the books of the Series and the U.S. dollar equivalent amounts actually received or paid.

3. Deferred Compensation Plan: Each eligible Trustee of the Trust may elect to participate in the Fee Deferral Plan for Independent Directors and Trustees (the "Plan"). Under the Plan, effective January 1, 2002, such Trustees may defer payment of all or a portion of their total fees earned as a Trustee. These deferred amounts may be treated as though such amounts had been invested in shares of the following funds: the U.S. Large Cap Value Portfolio, U.S. Core Equity 1 Portfolio, U.S. Large Company Portfolio, U.S. Vector Equity Portfolio, U.S. Micro Cap Portfolio, DFA International Value Portfolio, International Core Equity Portfolio, Emerging Markets Portfolio, Emerging Markets Core Equity Portfolio, DFA Inflation-Protected Securities Portfolio, and/or DFA Two-Year Global Fixed Income Portfolio. Contributions made under the Plan and the change in unrealized appreciation (depreciation) and income are included in Directors'/ Trustees' Fees & Expenses.

The Trustees may receive their distributions of proceeds by one of the following methods: lump sum, annual installments over a period of agreed-upon years, or quarterly installments over a period of agreed-upon years. Each Trustee shall have the right in a notice of election (the "Notice") to defer the receipt of the Trustee's deferred compensation until a date specified by such Trustee in the Notice. The date may not be sooner than the earlier of: (i) the first business day of January following the year in which such Trustee ceases to be a member of the Board of Trustees of the Trust; and (ii) five years following the effective date of the Trustee's first deferral election. If a Trustee who elects to defer fees fails to designate in the Notice a time or date as of which payment of the Trustee's deferred fee account shall commence, payment of such amount shall commence as of the first business day of January following the year in which the Trustee ceases to be a member of the Board (unless the Trustee files an amended Notice selecting a different distribution date).

4. Other: Security transactions are accounted for as of the trade date. Costs used in determining realized gains and losses on the sale of investment securities and foreign currency are accounted for on the basis of identified cost. Dividend income and distributions to shareholders are recorded on the ex-dividend date. Non-cash dividend income received in the form of securities in-lieu of cash, if any, are recorded at the fair value of securities received. Distributions received on securities and that represent a return of capital or capital gains are recorded as a reduction of cost of investments or as a realized gain, respectively. The Series estimate the character of received distributions that may be considered return of capital distributions. Interest income is recorded on an accrual basis. Discount and premium on securities purchased are amortized over the lives of the respective securities, using the effective interest method. Expenses directly attributable to a Series are directly charged. Common expenses of the Trust or Series are allocated using methods approved by the Board of Trustees, generally based on average net assets.

The Series may be subject to taxes imposed by countries in which they invest with respect to their investments in issuers existing or operating in such countries. Such taxes are generally based on income earned or repatriated and capital gains realized on the sale of such investments. The Series accrue such taxes when the related income or capital gains are earned or throughout the holding period. Some countries require governmental approval for the repatriation of investment income, capital or the proceeds of sales earned by foreign investors. Additionally, if there is a deterioration in a country's balance of payments or for other reasons, a country may impose temporary restrictions on foreign capital remittances abroad.

The Emerging Markets Series and The Emerging Markets Small Cap Series are subject to tax on short-term and long-term capital gains for investments in India. Such taxes are accrued on a daily basis and due upon sale of individual securities.

#### C. Investment Advisor:

The Advisor, Dimensional Fund Advisors LP, provides investment management services to the Series. For the year ended October 31, 2023, investment management fees were accrued daily and paid monthly to the Advisor based on the following effective annual rates of average daily net assets:

The DFA International Value Series	0.20%
The Japanese Small Company Series	0.10%
The Asia Pacific Small Company Series	0.10%
The United Kingdom Small Company Series	0.10%
The Continental Small Company Series	0.10%
The Canadian Small Company Series	0.10%
The Emerging Markets Series	0.10%
The Emerging Markets Small Cap Series	0.20%

#### **Earned Income Credit:**

Additionally, the Series have entered into arrangements with their custodian whereby net interest earned on uninvested cash balances was used to reduce a portion of the Series' custody expenses. Custody expense in the accompanying financial statements is presented before reduction for credits. The impact of such credits is generally less than one basis point of each Series' net assets. During the year ended October 31, 2023, expenses reduced were as follows (amounts in thousands):

	Fees Paid Indirectly
The DFA International Value Series	\$156
The Japanese Small Company Series	27
The Asia Pacific Small Company Series	22
The United Kingdom Small Company Series	1
The Continental Small Company Series	3
The Canadian Small Company Series	11
The Emerging Markets Series	340
The Emerging Markets Small Cap Series	254

#### Fees Paid to Officers and Directors/Trustees:

Certain Officers and Trustees of the Advisor are also Officers and Trustees of the Trust; however, such Officers and Trustees (with the exception of the Chief Compliance Officer ("CCO")) receive no compensation from the Trust. For the year ended October 31, 2023, the total related amounts paid by the Trust to the CCO were \$35 (in thousands). The total related amounts paid by each of the Series are included in Other Expenses on the Statements of Operations.

#### D. Deferred Compensation:

As of October 31, 2023, the total liability for deferred compensation to Trustees is included in Accrued Expenses and Other Liabilities on the Statements of Assets and Liabilities as follows (amounts in thousands):

The DFA International Value Series	\$147
The Japanese Small Company Series	38
The Asia Pacific Small Company Series	18
The United Kingdom Small Company Series	24
The Continental Small Company Series	32
The Canadian Small Company Series	8
The Emerging Markets Series	60
The Emerging Markets Small Cap Series	53

#### E. Purchases and Sales of Securities:

For the year ended October 31, 2023, the Series' transactions related to investment securities, other than short-term securities, in-kind redemptions and U.S. Government securities (amounts in thousands), were as follows:

	Purchases	Sales
The DFA International Value Series	\$1,473,241	\$1,778,732
The Japanese Small Company Series	257,634	350,049
The Asia Pacific Small Company Series	289,283	212,456
The United Kingdom Small Company Series	206,132	121,054
The Continental Small Company Series	548,017	600,534
The Canadian Small Company Series	211,353	213,760

	Р	urchases	 Sales
The Emerging Markets Series	\$	657,873	\$ 634,434
The Emerging Markets Small Cap Series		742,279	868,591

There were no purchases or sales of long-term U.S. government securities.

For the year ended October 31, 2023, transactions related to Affiliated Investment Companies, excluding in-kind redemptions, are presented below.

The amounts presented below may differ from the respective amounts presented in the corresponding Summary Schedule of Portfolio Holdings, Statement of Assets and Liabilities or Statement of Operations due to rounding. The amounts are as follows (amounts in thousands):

#### F. Federal Income Taxes:

No provision for federal income taxes is required since the Series are treated as partnerships for federal income tax purposes. Any net investment income and realized and unrealized gains and losses have been deemed to have been "passed down" to their respective partners.

As of October 31, 2023, the total cost and aggregate gross unrealized appreciation (depreciation) of securities for federal income tax purposes were different from amounts reported for financial reporting purposes, as follows (amounts in thousands):

Federal Tax Cost	Unrealized Appreciation	Unrealized (Depreciation)	Net Unrealized Appreciation (Depreciation)
\$10,616,293	\$2,031,198	\$(1,019,651)	\$1,011,547
2,854,583	430,053	(462,105)	(32,052)
1,560,606	159,336	(516,108)	(356,772)
1,375,890	232,484	(358,339)	(125,855)
4,486,860	1,092,830	(832,276)	260,554
1,226,935	233,676	(200,455)	33,221
3,096,658	1,692,791	(382,132)	1,310,659
3,613,773	1,075,384	(829,173)	246,211
	Tax Cost \$10,616,293 2,854,583 1,560,606 1,375,890 4,486,860 1,226,935 3,096,658	Tax Cost         Appreciation           \$10,616,293         \$2,031,198           2,854,583         430,053           1,560,606         159,336           1,375,890         232,484           4,486,860         1,092,830           1,226,935         233,676           3,096,658         1,692,791	Tax Cost         Appreciation         (Depreciation)           \$10,616,293         \$2,031,198         \$(1,019,651)           2,854,583         430,053         (462,105)           1,560,606         159,336         (516,108)           1,375,890         232,484         (358,339)           4,486,860         1,092,830         (832,276)           1,226,935         233,676         (200,455)           3,096,658         1,692,791         (382,132)

The difference between GAAP-basis and tax-basis unrealized gains (losses) can occur as a result of wash sales and net mark-to-market gains (losses) on regulated futures contracts, net mark-to-market gains (losses) on foreign currency contracts, and differences in the tax treatment of passive foreign investment company investments or other investments.

ASC 740 Accounting for Uncertainty in Income Taxes sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Management has analyzed the Series' tax positions and has concluded that no additional provision for income tax is required in any Series' financial statements. The Series are not aware of any tax positions for which it is more likely than not that the total amounts of unrecognized tax benefits will significantly change in the next twelve months. The Series' federal tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service.

#### G. Financial Instruments:

In accordance with the Series' investment objectives and policies, the Series may invest in certain financial instruments that have off-balance sheet risk in excess of the amounts recognized in the financial statements and concentrations of credit and market risk. These instruments and their significant corresponding risks are described below:

1. Foreign Market Risks: Investments in foreign markets may involve certain considerations and risks not typically associated with investments in the United States of America, including the possibility of future political and economic developments and the level of foreign governmental supervision and regulation of foreign securities markets. These markets are generally smaller, less liquid and more volatile than the major securities markets in the United States of America. Consequently, acquisition and disposition of international securities held by the Series may be inhibited.

Series that have significant exposure to certain countries, such as The United Kingdom Small Company Series that concentrates investments in the United Kingdom, can be expected to be impacted by the political and economic conditions within such countries. For example, there is continuing uncertainty around the future of the euro and the European Union (EU) following the United Kingdom's (UK) exit from the EU (referred to as "Brexit"). Brexit may cause greater market volatility and illiquidity, currency fluctuations, deterioration in economic activity, a decrease in business confidence, and increased likelihood of a recession in the UK. While it is not possible to determine the precise impact these events may have on the Series, the ultimate impact on the UK, EU countries, other countries or parties that transact with the UK and EU, and the broader global economy could be significant and could adversely affect the value and liquidity of the Series' investments.

#### **Derivative Financial Instruments:**

Summarized below are the specific types of derivative instruments used by the Series.

2. Futures Contracts: The Series listed below may purchase or sell futures contracts and options on futures contracts for equity securities and indices to increase or decrease market exposure based on actual or expected cash inflows to or outflows from the Series. Upon entering into a futures contract, a Series deposits cash or pledges U.S. Government securities to a broker in an amount equal to the minimum "initial margin" requirements of the exchange on which the contract is traded. Subsequent payments are received from or paid to the broker each day, based on the daily fluctuation in the market value of the contract. These receipts or payments are known as "variation margin" and are recorded daily by the Series as unrealized gains or losses until the contracts are closed. When the contracts are closed, the Series records a realized gain or loss, which is presented in the Statements of Operations as a net realized gain or loss on futures, equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

Risks may arise upon entrance into futures contracts from potential imperfect price correlations between the futures contracts and the underlying securities, from the possibility of an illiquid secondary market for these instruments and from the possibility that the Series could lose more than the initial margin requirements. A Portfolio entering into stock index futures is subject to equity price risk from those futures contracts.

Securities have been segregated as collateral for open futures contracts.

The average volume (based on the open positions at each fiscal month-end) of derivative activity for the year ended October 31, 2023 was as follows (amounts in thousands):

	rutures
The DFA International Value Series	\$105,692
The Canadian Small Company Series	544
The Emerging Markets Series	32,710
The Emerging Markets Small Cap Series	29,598

- (2) Presented on Statements of Operations as Change in Unrealized Appreciation (Depreciation) of: Futures.

## H. Line of Credit and Interfund Lending Program:

The Trust, together with other Dimensional-advised portfolios, has entered into a \$500 million uncommitted, unsecured discretionary line of credit effective April 5, 2023, with its domestic custodian bank. A line of credit with similar terms was in effect through April 5, 2023. Each portfolio is permitted to borrow, subject to its investment limitations, up to a maximum of \$250 million, as long as total borrowings under the line of credit do not exceed \$500 million in the aggregate. Borrowings under the line of credit are charged interest at rates agreed upon by the parties at the time of borrowing. Each portfolio is individually, and not jointly, liable for its particular advances under the line of credit. There is no commitment fee on the unused portion of the line of credit. The agreement for the discretionary line of credit may be terminated by either party at any time. The agreement for the line of credit expires on April 3, 2024.

The Trust, together with other Dimensional-advised portfolios, has also entered into an additional \$700 million unsecured line of credit with its international custodian bank effective December 28, 2022. A line of credit with similar terms was in effect through December 28, 2022. Each portfolio is permitted to borrow, subject to its investment limitations, up to the lower of one-quarter of such portfolio's net assets or \$500 million, as long as total borrowings under the line of credit do not exceed \$700 million in the aggregate. Each portfolio is individually, and not jointly, liable for its particular advances under the line of credit. Borrowings under the line of credit are charged interest at rates agreed upon by the parties at the time of borrowing. There is no commitment fee on the unused portion of the line of credit. The line of credit agreement expires on December 27, 2023.

For the year ended October 31, 2023, borrowings by the following Series under the lines of credit were as follows (amounts in thousands, except percentages and days):

	Weighted Average Interest Rate	Weighted Average Loan Balance	Number of Days Outstanding*	Interest Expense Incurred	Maximum Amount Borrowed During the Period	Outstanding Borrowings as of 10/31/2023
The DFA International						
Value Series	5.78%	\$3,406	20	\$11	\$21,628	_
The Japanese Small						
Company Series	5.65%	2,224	20	7	17,047	_
The Asia Pacific Small						
Company Series	5.69%	1,891	37	12	13,300	_
The United Kingdom Small						
Company Series	4.91%	53	6	_	101	_
The Continental Small						
Company Series	5.30%	358	32	2	3,496	_
The Canadian Small						
Company Series	5.05%	71	8	_	127	_
The Emerging Markets						
Series	4.58%	135	3	_	213	_
The Emerging Markets						
Small Cap Series	5.08%	6,998	3	3	18,908	_

<sup>\*</sup> Number of Days Outstanding represents the total of single or consecutive days during the year ended October 31, 2023, that the Series' available line of credit was used.

Pursuant to an exemptive order issued by the SEC (the "Order"), the Series may participate in an interfund lending program among certain portfolios managed by the Advisor (portfolios that operate as feeder funds do not participate in the program). The program allows the participating portfolios to borrow money from and loan money to each other for temporary or emergency purposes, subject to the conditions in the Order. A loan can only be made through the program if the interfund loan rate on that day is more favorable to both the borrowing and lending portfolios as compared to rates available through short-term bank loans or investments in overnight repurchase agreements and money market funds, respectively, as detailed in the Order. Further, a portfolio may participate in the program only if and to the extent that such participation is consistent with its investment objectives and limitations. Interfund loans have a maximum duration of seven days and may be called on one business day's notice.

The Series did not use the interfund lending program during the year ended October 31, 2023.

# I. Affiliated Trades:

Cross trades for the year ended October 31, 2023, if any, were executed by the Series pursuant to procedures adopted by the Board of Trustees of the Trust to ensure compliance with Rule 17a-7 under the 1940 Act. Cross trading is the buying or selling of portfolio securities between series of investment companies, or between a series of an investment company and another entity, that are or could be considered affiliates by virtue of a common investment advisor (or affiliated investment advisors), common Trustees and/or common Officers. At its regularly scheduled meetings, the CCO certifies to the Board that the 17a-7 transactions entered into by the Series complied with the Rule 17a-7 Procedures adopted by the Board of Trustees of the Trust.

For the year ended October 31, 2023, cross trades by the Series under Rule 17a-7 were as follows (amounts in thousands):

Series	Purchases	Sales	Realized Gain (Loss)
The DFA International Value Series	\$219,294	\$101,439	\$ (227)
The Japanese Small Company Series	38,826	40,169	4,216
The Asia Pacific Small Company Series	32,803	22,243	(11,010)
The United Kingdom Small Company Series	28,477	16,306	(19,690)
The Continental Small Company Series	26,493	35,701	(6,460)
The Canadian Small Company Series	34,457	23,182	6,623
The Emerging Markets Series	5,789	2,816	(1,384)
The Emerging Markets Small Cap Series	3,353	4,249	(1,718)

# J. Securities Lending:

As of October 31, 2023, the Series had securities on loan to brokers/dealers, for which each such Series received cash collateral. The Series also received non-cash collateral consisting of short- and/or long-term U.S. Treasuries and U.S. government agency securities as follows (amounts in thousands):

Non Cook

	Collateral Market Value
The DFA International Value Series	\$ 19,352
The Japanese Small Company Series	130,156
The Asia Pacific Small Company Series	83,547
The Continental Small Company Series	6,467
The Canadian Small Company Series	6,333
The Emerging Markets Series	111,563
The Emerging Markets Small Cap Series	289,839

Each Series invests the cash collateral, as described below, and records a liability for the return of the collateral, during the period the securities are on loan. Loans of securities are expected at all times to be secured by collateral in an amount (i) equal to at least 100% of the current market value of the loaned securities with respect to securities of the U.S. government or its agencies, (ii) generally equal to 102% of the current market value of the loaned securities with respect to U.S. securities, and (iii) generally equal to 105% of the current market value of the loaned securities with respect to foreign securities. However, daily market fluctuations could cause the Series' collateral to be lower or higher than the expected thresholds. If this were to occur, the collateral would be adjusted the next business day to ensure adequate collateralization. In the event of default or bankruptcy by the other party to the agreement, realization and/or retention of the collateral may be subject to legal proceedings. If the borrower fails to return loaned securities, cash collateral being maintained by the borrower is insufficient to cover the value of loaned securities, and such collateral insufficiency is not the result of investment losses, the lending agent has agreed to pay the amount of the shortfall to the Series or, at the option of the lending agent, to replace the securities. In the event of the bankruptcy of the borrower, the Series could experience delay in recovering the loaned securities or only recover cash or a security of equivalent value.

Subject to their stated investment policies, each Series will generally invest the cash collateral received for the loaned securities in The DFA Short Term Investment Fund (the "Money Market Series"), an affiliated registered money market fund advised by the Advisor for which the Advisor receives a management fee of 0.05% of the average daily net assets of the Money Market Series. Income received from the Money Market Series is netted with fees for securities lending and collateral investment expenses and with other payments to and from borrowers of securities. The Series also may invest the cash collateral received for the loaned securities in securities of the U.S. government or its agencies, repurchase agreements collateralized by securities of the U.S. government or its agencies, and affiliated or unaffiliated money market funds that are registered or unregistered. For purposes of this paragraph, agencies include both agency debentures and agency mortgage-backed securities. Additionally, each Series will be able to terminate the loan at any time and will receive reasonable interest on the loan, as well as amounts equal to any dividends, interest or, other distributions on the loaned securities. However, dividend income received from loaned securities may not be eligible for taxation at qualified dividend income rates.

The following table reflects a breakdown of transactions accounted for as secured borrowings, the gross obligation by the type of collateral pledged, and the remaining contractual maturity of those transactions as of October 31, 2023 (amounts in thousands):

Remaining Contractual Maturity of the Agreements

## K. Indemnitees; Contractual Obligations:

Under the Trust's organizational documents, its Officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Trust.

In the normal course of business, the Trust enters into contracts that contain a variety of representations and warranties that provide general indemnification. The Trust's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Trust and/or its affiliates that have not yet occurred. However, based on experience, the Trust expects the risk of loss to be remote.

# L. Recently Issued Accounting Standards and Regulations:

In March 2020, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2020-04, Reference Rate Reform (Topic 848) – Facilitation of the Effects of Reference Rate Reform on Financial Reporting. In January 2021, the FASB issued ASU No. 2021-01, with further amendments to Topic 848. The amendments in the ASUs provide optional temporary accounting recognition and financial reporting relief from the effect of certain types of contract modifications due to the planned discontinuation of the LIBOR and other interbank-offered based reference rates as of the end of 2021 and 2023. The ASUs were effective for certain reference rate-related contract modifications that occurred during the period March 12, 2020 through December 31, 2022. Management has reviewed the requirements and determined the adoption of these ASUs will not have a material impact on the Series' financial statements.

In October 2022, the SEC adopted rule and form amendments requiring open-end management investment companies, including mutual funds and exchange-traded funds, to transmit concise and visually engaging semi-annual and annual reports that highlight key information, including fund expenses, performance, and holdings to shareholders. Other information, including financial statements, will no longer appear in the Series' shareholder reports but will be available online, delivered free of charge upon request, and filed on a semi-annual basis on Form N-CSR. The rule and form amendments have a compliance date of July 24, 2024. Accordingly, the rule and form amendments will not impact the Series until the 2024 annual shareholder reports, and will have no effect on the Series' accounting policies or financial statements.

#### M. Other:

The Series and the Trust are subject to claims and suits that arise from time to time in the ordinary course of business (for example, claw back litigation against former shareholders of portfolio companies that filed for bankruptcy, such as the now ended litigation involving The Tribune Company and the ongoing litigation involving Nine West). Although management currently believes that resolving claims against the Series and the Trust, individually or in aggregate, will not have a material adverse impact on the Series' and the Trust's financial position, results of operations, or cash flows, these matters are subject to inherent uncertainties and management's view of these matters may change in the future.

# N. Subsequent Event Evaluations:

Management has evaluated the impact of all subsequent events on the Series through the date on which the financial statements were issued and has determined that there are no subsequent events requiring recognition or disclosure in the financial statements.

## Report of Independent Registered Public Accounting Firm

To the Board of Trustees of The DFA Investment Trust Company and Shareholders of The DFA International Value Series, The Japanese Small Company Series, The Asia Pacific Small Company Series, The United Kingdom Small Company Series, The Continental Small Company Series, The Canadian Small Company Series, The Emerging Markets Series and The Emerging Markets Small Cap Series

## Opinions on the Financial Statements

We have audited the accompanying statements of assets and liabilities, including the summary schedules of portfolio holdings, of The DFA International Value Series, The Japanese Small Company Series, The Asia Pacific Small Company Series, The United Kingdom Small Company Series, The Continental Small Company Series, The Canadian Small Company Series, The Emerging Markets Series and The Emerging Markets Small Cap Series (eight of the series constituting The DFA Investment Trust Company, hereafter collectively referred to as the "Series") as of October 31, 2023, the related statements of operations for the year ended October 31, 2023, including the related notes, and the financial highlights for each of the five years in the period ended October 31, 2023 (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Series as of October 31, 2023, the results of each of their operations for the year then ended, the changes in each of their net assets for each of the two years in the period ended October 31, 2023, and each of the financial highlights for each of the five years in the period ended October 31, 2023 in conformity with accounting principles generally accepted in the United States of America.

# **Basis for Opinions**

These financial statements are the responsibility of the Series' management. Our responsibility is to express an opinion on the Series' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Series in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of October 31, 2023 by correspondence with the custodian, brokers and transfer agent of the investee fund; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinions.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

## **International Equity Market Review**

## 12 Months Ended October 31, 2023

Performance of non-U.S. developed markets was positive for the period outperforming the US and emerging markets. As measured by the MSCI World ex USA indices, small-cap stocks underperformed large-cap stocks, and mid-cap stocks underperformed large-cap stocks but outperformed small-cap stocks. Value stocks outperformed growth stocks as measured by the MSCI World ex USA indices.

#### Total Return for 12 Months Ended October 31, 2023

	Return in U.S. Dollars
MSCI World ex USA Index	12.56%
MSCI World ex USA Mid Cap Index (a subset of the large-cap universe)	9.62%
MSCI World ex USA Small Cap Index	5.66%
MSCI World ex USA Value Index	15.70%
MSCI World ex USA Growth Index	9.49%

For the 12 months ended October 31, 2023, the U.S. dollar appreciated against more than half of non-U.S. developed markets currencies. Overall, currency movements had a positive impact on the U.S. dollar-denominated returns of developed markets.

## Total Return for 12 Months Ended October 31, 2023

Ten Largest Foreign Developed Markets by Market Cap	Local Return	Return in U.S. Dollars
Japan	19.00%	16.79%
United Kingdom	7.11%	12.88%
Canada	0.51%	-1.24%
France	10.52%	18.19%
Switzerland	-2.37%	7.36%
Australia	4.89%	3.85%
Germany	10.73%	18.42%
Netherlands	11.07%	18.56%
Sweden	7.32%	6.14%
Denmark	31.92%	40.72%

For Portfolios investing in non-U.S. equities traded outside of the U.S. market time zone, differences in the valuation timing and methodology between a Portfolio and its benchmark index may impact relative performance over the referenced period. The Portfolios price foreign exchange rates at the closing of the U.S. market, while their benchmark indices use rates at 4 p.m. London time. The Portfolios also may use fair value pricing to price certain portfolio securities at the closing of the U.S. market, while benchmark indices may use local market closing prices. For the one-year period ended October 31, 2023, these differences generally contributed positively to non-US developed markets Portfolios' relative performance and were not material to emerging markets Portfolios' relative performance.

## **Dimensional Emerging Markets Value Fund**

The Dimensional Emerging Markets Value Fund invests in value stocks of large and small companies in emerging markets. Additionally, the Fund generally excludes real estate investment trusts (REITs) and highly regulated utilities. The investment strategy is process driven, emphasizing broad diversification with increased exposure to stocks with smaller market capitalizations, lower relative price

(value), and higher profitability within the value segment of emerging markets. As of October 31, 2023, the Fund held approximately 3,230 securities in 22 eligible emerging markets. Average cash exposure throughout the year was less than 1% of the Fund's assets.

For the 12 months ended October 31, 2023, total returns were 16.09% for the Fund, 13.43% for the MSCI Emerging Markets Value Index (net dividends), and 10.80% for the MSCI Emerging Markets Index (net dividends). The Fund's focus on value stocks contributed positively to performance relative to the benchmarks, as value stocks outperformed growth stocks in emerging markets. The Fund's emphasis on stocks with smaller market capitalizations also contributed positively to relative performance, as these stocks outperformed. Additionally, the Fund's emphasis on stocks with higher profitability contributed positively to performance relative to the benchmarks, as these stocks generally outperformed.

# DIMENSIONAL EMERGING MARKETS VALUE FUND DISCLOSURE OF FUND EXPENSES

(Unaudited)

The following Expense Table is shown so that you can understand the impact of fees on your investment. All mutual funds have operating expenses. As a shareholder of the fund, you incur ongoing costs, which include costs for portfolio management, administrative services, and shareholder reports, among others. Operating expenses and legal and audit services, which are deducted from a fund's gross income, directly reduce the investment return of the fund. A fund's expenses are expressed as a percentage of its average net assets. This figure is known as the expense ratio. The following examples are intended to help you understand the ongoing costs, in dollars, of investing in the fund and to compare these costs with those of other mutual funds. The examples are based on an investment of \$1,000 made at the beginning of the period shown and held for the entire period.

The Expense Table below illustrates your fund's costs in two ways.

#### **Actual Fund Return**

This section helps you to estimate the actual expenses after fee waivers that you paid over the period. The "Ending Account Value" shown is derived from the fund's actual return, and "Expenses Paid During Period" reflects the dollar amount that would have been paid by an investor who started with \$1,000 in the fund. You may use the information here, together with the amount you invested, to estimate the expenses that you paid over the period.

To do so, simply divide your account value by \$1,000 (for example, a \$7,500 account value divided by \$1,000 = 7.5), then multiply the result by the number given for your fund under the heading "Expenses Paid During Period."

# **Hypothetical Example for Comparison Purposes**

This section is intended to help you compare your fund's costs with those of other mutual funds. The hypothetical "Ending Account Value" and "Expenses Paid During Period" are derived from the fund's actual expense ratio and an assumed 5% annual return before expenses. In this case, because the return used is not the fund's actual return, the results do not apply to your investment. The example is useful in making comparisons because the SEC requires all mutual funds to calculate expenses based on a 5% annual return. You can assess your fund's costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight and help you compare ongoing costs only and do not reflect any transactional costs, if applicable. The "Annualized Expense Ratio" represents the actual expenses for the six-month period indicated.

# **DISCLOSURE OF FUND EXPENSES**

CONTINUED

Six Months Ended October 31, 2023

# **EXPENSE TABLE**

	Beginning Account Value 05/01/23	Ending Account Value 10/31/23	Annualized Expense Ratio (1)	Expenses Paid During Period (1)
Dimensional Emerging Markets Value Fund				
Actual Fund Return Institutional Class Shares Hypothetical 5% Annual Return	\$1,000.00	\$ 986.50	0.15%	\$0.75
Institutional Class Shares	\$1,000.00	\$1,024.45	0.15%	\$0.77

<sup>(1)</sup> Expenses are equal to the fund's annualized expense ratio for the six-month period, multiplied by the average account value over the period, multiplied by the number of days in the most recent six-month period (184), then divided by the number of days in the year (365) to reflect the six-month period.

# DIMENSIONAL EMERGING MARKETS VALUE FUND DISCLOSURE OF PORTFOLIO HOLDINGS

(Unaudited)

The SEC requires that all funds file a complete Schedule of Investments with the SEC for their first and third fiscal quarters as an exhibit to their reports on Form N-PORT. For the Dimensional Emerging Markets Value Fund, this would be for the fiscal quarters ending January 31 and July 31. Such Form N-PORT filing must be made within 60 days of the end of the quarter. Dimensional Emerging Markets Value Fund filed its most recent Form N-PORT with the SEC on September 29, 2023. They are available upon request, without charge, by calling collect: (512) 306-7400; by mailing a request to Dimensional Fund Advisors LP, 6300 Bee Cave Road, Building One, Austin, TX 78746; by visiting the SEC's website at http://www.sec.gov; or by visiting the SEC's Public Reference Room in Washington, D.C. (call 1-800-732-0330 for information on the operation of the Public Reference Room).

SEC regulations permit a fund to include in its reports to shareholders a "Summary Schedule of Portfolio Holdings" in lieu of a full Schedule of Investments. The Summary Schedule of Portfolio Holdings reports the fund's 50 largest holdings in unaffiliated issuers and any investments that exceed one percent of the fund's net assets at the end of the reporting period. The regulations also require that the Summary Schedule of Portfolio Holdings identify each category of investments that are held.

A fund is required to file a complete Schedule of Investments with the SEC on Form N-CSR within ten days after mailing the annual and semi-annual reports to shareholders. It will be available upon request, without charge, by calling collect: (512) 306-7400; by mailing a request to Dimensional Fund Advisors LP, 6300 Bee Cave Road, Building One, Austin, TX 78746; or by visiting the SEC's website at http://www.sec.gov.

## **PORTFOLIO HOLDINGS**

The SEC requires that all funds present their categories of portfolio holdings in a table, chart, or graph format in their annual and semi-annual shareholder reports, whether or not a Schedule of Investments is used. The following table, which presents portfolio holdings as a percentage of total investments before short-term investments and collateral for loaned securities, is provided in compliance with this requirement. The categories shown below represent broad industry sectors. Each industry sector consists of one or more specific industry classifications.

# DIMENSIONAL EMERGING MARKETS VALUE FUND NOTES TO FINANCIAL STATEMENTS

## A. Organization:

Dimensional Emerging Markets Value Fund (the "Fund") is an open-end management investment company registered under the Investment Company Act of 1940 (the "1940 Act"). The Fund meets the definition as an investment company and follows the accounting and reporting guidance under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 946, "Financial Services-Investment Companies." The Fund consists of one series.

# **B. Significant Accounting Policies:**

The following significant accounting policies are in conformity with accounting principles generally accepted in the United States of America ("GAAP"). Such policies are consistently followed by the Fund in preparation of its financial statements. The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the fair value of investments, the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates, and those differences could be material.

- 1. Security Valuation: The Fund uses a fair value hierarchy, which prioritizes the inputs-to-valuation techniques used to measure fair value into three broad levels described below:
  - Level 1 inputs are quoted prices in active markets for identical securities (including equity securities, open-end investment companies, and futures contracts)
  - Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
  - Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

Securities held by the Fund, including over-the-counter securities, are valued at the last quoted sale price of the day. International equity securities are subject to a fair value factor, as described later in this note.

Securities held by the Fund that are listed on Nasdaq are valued at the Nasdaq Official Closing Price ("NOCP"). If there is no last reported sale price or NOCP for the day, the Fund values the securities at the mean between the most recent quoted bid and ask prices. Price information on listed securities is taken from the exchange where the security is primarily traded. Generally, securities issued by open-end management investment companies are valued using their respective net asset values or public offering prices, as appropriate, for purchase orders placed at the close of the New York Stock Exchange ("NYSE"). These securities are generally categorized as Level 1 in the hierarchy.

Securities for which no market quotations are readily available (including restricted securities), or for which market quotations have become unreliable, are valued in good faith at fair value in accordance with Rule 2a-5 under the 1940 Act pursuant to procedures approved by the Board of Trustees of the Fund. Fair value pricing may also be used if events that have a significant effect on the value of an investment (as determined in the discretion of Dimensional Fund Advisors LP) occur before the net asset value of the Fund is calculated. When fair value pricing is used, the prices of securities used by the Fund may differ from the quoted or published prices for the same securities on their primary markets or exchanges. These securities are generally categorized as Level 2 or Level 3 in the hierarchy.

The Fund will also apply a fair value price in the circumstances described below. Generally, trading in foreign securities markets is completed each day at various times prior to the close of the NYSE. For example, trading in the Japanese securities markets is completed each day at the close of the Tokyo Stock Exchange (normally, 2:00 a.m. ET), which is fourteen hours before the close of the NYSE (normally, 4:00 p.m. ET) and the time at which the net asset

value of the Fund is computed. Due to the time differences between the closings of the relevant foreign securities exchanges and the pricing of the Fund's shares (at the close of the NYSE), the Fund will fair-value its foreign investments when it is determined that the market quotations for the foreign investments are either unreliable or not readily available. The fair value prices will attempt to reflect the impact of the U.S. financial markets' perceptions and trading activities on the Fund's foreign investments since the last calculated closing prices of the foreign investments on their primary foreign securities markets or exchanges. For these purposes, Dimensional Fund Advisors LP has determined that movements in relevant indices or other appropriate market indicators, after the close of the Tokyo Stock Exchange or the London Stock Exchange, demonstrate that market quotations may be unreliable. Fair valuation of portfolio securities may occur on a daily basis. The fair value pricing by the Fund uses data furnished by an independent pricing service (and that data draws upon, among other information, the market values of foreign investments). When the Fund uses fair value pricing, the values assigned to the Fund's foreign investments may not be the quoted or published prices of the investments on their primary markets or exchanges. These securities are generally categorized as Level 2 in the hierarchy.

Futures contracts held by the Fund are valued using the settlement price established each day on the exchange on which they are traded. These valuations are generally categorized as Level 1 in the hierarchy.

A summary of the inputs used to value the Fund's investments by each major security type, industry and/or country is disclosed previously in this note. A valuation hierarchy table has been included at the end of the Summary Schedule of Portfolio Holdings. The methodology or inputs used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

2. Foreign Currency Translation: Securities and other assets and liabilities of the Fund whose values are initially expressed in foreign currencies are translated to U.S. dollars using the mean between the most recent bid and ask prices for the U.S. dollar as quoted by generally recognized reliable sources. To facilitate the translation, the Fund enters into foreign currency contracts. A foreign currency contract is a spot agreement between two parties to buy and sell currencies at current market exchange rates, for settlement generally within two business days. Dividend and interest income and certain expenses are translated to U.S. dollars at the rate of exchange on their respective accrual dates. Receivables and payables denominated in foreign currencies are marked-to-market daily based on daily exchange rates and exchange gains or losses are realized upon ultimate receipt or disbursement. The Fund does not isolate the effect of foreign exchange rate fluctuations from the effect of fluctuations in the market prices of securities, whether realized or unrealized.

Realized gains or losses on foreign currency transactions represent net foreign exchange gains or losses from the disposition of foreign currencies, currency gains or losses realized between the trade and settlement dates of securities transactions, and the difference between amounts of interest, dividends and any foreign withholding taxes recorded on the books of the Fund and the U.S. dollar equivalent amounts actually received or paid.

3. Deferred Compensation Plan: Each eligible Trustee of the Fund may elect to participate in the Fee Deferral Plan for Independent Directors and Trustees (the "Plan"). Under the Plan, effective January 1, 2002, such Trustees may defer payment of all or a portion of their total fees earned as a Trustee. These deferred amounts may be treated as though such amounts had been invested in shares of the following funds: the U.S. Large Cap Value Portfolio, U.S. Core Equity 1 Portfolio, U.S. Large Company Portfolio, U.S. Vector Equity Portfolio, U.S. Micro Cap Portfolio, DFA International Value Portfolio, International Core Equity Portfolio, Emerging Markets Portfolio, DFA Inflation-Protected Securities Portfolio, and/or DFA Two-Year Global Fixed Income Portfolio. Contributions made under the Plan and the change in unrealized appreciation (depreciation) and income are included in Directors'/ Trustees' Fees & Expenses. As of October 31, 2023, the total liability for deferred compensation to Trustees is included in Accrued Expenses and Other Liabilities on the Statement of Assets and Liabilities in the amount of \$278 (in thousands).

The Trustees may receive their distributions of proceeds by one of the following methods: lump sum, annual installments over a period of agreed-upon years, or quarterly installments over a period of agreed-upon years. Each Trustee shall have the right in a notice of election (the "Notice") to defer the receipt of the Trustee's deferred compensation until a date specified by such Trustee in the Notice. The date may not be sooner than the earlier of: (i) the first business day of January following the year in which such Trustee ceases to be a member of the Board of Trustees of the Fund; and (ii) five years following the effective date of the Trustee's first deferral election. If a Trustee

who elects to defer fees fails to designate in the Notice a time or date as of which payment of the Trustee's deferred fee account shall commence, payment of such amount shall commence as of the first business day of January following the year in which the Trustee ceases to be a member of the Board (unless the Trustee files an amended Notice selecting a different distribution date).

4. Other. Security transactions are accounted for as of the trade date. Costs used in determining realized gains and losses on the sale of investment securities and foreign currency are accounted for on the basis of identified cost. Dividend income and distributions to shareholders are recorded on the ex-dividend date. Non-cash dividend income received in the form of securities in-lieu of cash, if any, are recorded at the fair value of securities received. Distributions received on securities that represent a return of capital or capital gains are recorded as a reduction of cost of investments or as a realized gain, respectively. The Fund estimates the character of received distributions that may be considered return of capital distributions. Interest income is recorded on an accrual basis. Expenses directly attributable to the Fund are directly charged. The Fund may be subject to taxes imposed by countries in which it invests, with respect to its investments in issuers existing or operating in such countries. Such taxes are generally based on income earned or repatriated and capital gains realized on the sale of such investments. The Fund accrues such taxes when the related income or capital gains are earned or throughout the holding period. Some countries require governmental approval for the repatriation of investment income, capital or the proceeds of sales earned by foreign investors. Additionally, if there is a deterioration in a country's balance of payments or for other reasons, a country may impose temporary restrictions on foreign capital remittances abroad.

The Fund's investments in Chile are subject to governmental taxes on investment income. Such taxes are due when currencies are repatriated from the country. The Fund accrues for taxes on income as the income is earned. The Fund is subject to tax on short-term and long-term capital gains for investments in India. Such taxes are accrued on a daily basis and due upon sale of individual securities.

#### C. Investment Advisor:

The Advisor, Dimensional Fund Advisors LP, provides investment management services to the Fund.

For the year ended October 31, 2023, the Fund's investment management fee was accrued daily and paid monthly to the Advisor based on the following effective annual rate of average daily net assets:

#### **Earned Income Credit:**

Additionally, the Fund has entered into arrangements with its custodian whereby net interest earned on uninvested cash balances was used to reduce a portion of the Fund's custody expense. Custody expense in the accompanying financial statements is presented before reduction for credits. The impact of such credits is generally less than one basis point of the Fund's net assets. During the year ended October 31, 2023, expenses reduced were the following (amount in thousands):

# Fees Paid to Officers and Directors/Trustees:

Certain Officers and Trustees of the Advisor are also Officers and Trustees of the Fund; however, such Officers and Trustees (with the exception of the Chief Compliance Officer ("CCO")) receive no compensation from the Fund. For the year ended October 31, 2023, the total related amounts paid by the Fund to the CCO were \$5 (in thousands) and are included in Other Expenses on the Statement of Operations.

# **D. Deferred Compensation:**

As of October 31, 2023, the total liability for deferred compensation to Trustees is included in Accrued Expenses and Other Liabilities on the Statement of Assets and Liabilities as follows (amount in thousands):

Dimensional Emerging Markets Value Fund......\$278

#### E. Purchases and Sales of Securities:

For the year ended October 31, 2023, the Fund's transactions related to investment securities, other than short-term securities, in-kind redemptions and U.S. Government securities (amounts in thousands), were as follows:

	Purchases	Sales
Dimensional Emerging Markets Value Fund	\$1,237,990	\$2,035,042

There were no purchases or sales of long-term U.S. government securities.

For the year ended October 31, 2023, transactions related to Affiliated Investment Companies, excluding in-kind redemptions, are presented below.

The amounts presented below may differ from the respective amounts presented in the corresponding Summary Schedule of Portfolio Holdings, Statement of Assets and Liabilities or Statement of Operations due to rounding. The amounts are as follows (amounts in thousands):

	Balance at October 31, 2022	Purchases at Cost	Proceeds from Sales	Net Realized Gain/(Loss) on Sales	Appreciation/	Balance at October 31, 2023	Shares as of October 31, 2023		Capital Gain Distributions
Dimensional Emerging Markets Value Fund The DFA Short Term Investment Fund	\$204,252	\$1,013,812	\$1,094,481	\$36	\$81	\$123,700	10,694	\$7,767	_
Total	\$204,252	\$1,013,812	\$1,094,481	\$36	\$81	\$123,700	10,694	\$7,767	

#### F. Federal Income Taxes:

No provision for federal income taxes is required since the Fund is treated as a partnership for federal income tax purposes. Any net investment income and realized and unrealized gains and losses have been deemed to have been "passed down" to their respective partners.

As of October 31, 2023, the total cost and aggregate gross unrealized appreciation (depreciation) of securities for federal income tax purposes were different from amounts reported for financial reporting purposes, as follows (amounts in thousands):

				Unrealized
	Federal Tax Cost	Unrealized Appreciation	Unrealized (Depreciation)	Appreciation (Depreciation)
Dimensional Emerging Markets Value Fund	\$9,639,112	\$2,377,239	\$(1,845,410)	\$531,829

The difference between GAAP-basis and tax basis unrealized gains (losses) can occur as a result of wash sales and net mark-to-market gains (losses) on regulated futures contracts, net mark-to-market gains (losses) on foreign currency contracts, and differences in tax treatment of passive foreign investment company investments or other investments.

ASC 740 Accounting for Uncertainty in Income Taxes sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Management has analyzed the Fund's tax positions and has concluded that no additional provision for income tax is required in the Fund's financial statements. The Fund is not aware of any tax positions for which it is more likely than not that the total amounts of unrecognized tax benefits will significantly change in the next twelve months. The Fund's federal tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service.

#### G. Financial Instruments:

In accordance with the Fund's investment objective and policies, the Fund may invest in certain financial instruments that have off-balance sheet risk in excess of the amounts recognized in the financial statements and concentrations of credit and market risk. These instruments and their significant corresponding risks are described below:

1. Foreign Market Risks: Investments in foreign markets may involve certain considerations and risks not typically associated with investments in the United States of America, including the possibility of future political and economic developments and the level of foreign governmental supervision and regulation of foreign securities markets. These markets are generally smaller, less liquid and more volatile than the major securities markets in the United States of America. Consequently, acquisition and disposition of securities held by the Fund may be inhibited.

#### **Derivative Financial Instruments:**

Summarized below are the specific types of derivative instruments used by the Fund.

2. Futures Contracts: The Fund may purchase or sell futures contracts and options on futures contracts for foreign or U.S. equity securities and indices, to increase or decrease market exposure based on actual or expected cash inflows to or outflows from the Fund. Upon entering into a futures contract, the Fund deposits cash or pledges U.S. government securities to a broker in an amount equal to the minimum "initial margin" requirements of the exchange on which the contract is traded. Subsequent payments are received from or paid to the broker each day, based on the daily fluctuation in the market value of the contract. These receipts or payments are known as "variation margin" and are recorded daily by the Fund as unrealized gains or losses until the contracts are closed. When the contracts are closed, the Fund records a realized gain or loss, which is presented in the Statement of Operations as a net realized gain or loss on futures, equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

Risks may arise upon entrance into futures contracts from potential imperfect price correlations between the futures contracts and the underlying securities or indices, from the possibility of an illiquid secondary market for these instruments and from the possibility that the Fund could lose more than the initial margin requirements. A Portfolio entering into stock index futures is subject to equity price risk from those futures contracts.

Securities have been segregated as collateral for open futures contracts.

The average volume (based on the open positions at each fiscal month-end) of derivative activity for the year ended October 31, 2023 was as follows (amount in thousands):

	Futures*
Dimensional Emerging Markets Value Fund	\$75,695

<sup>\*</sup> Average Notional Value of futures contracts.

The following is a summary of the Fund's derivative instrument holdings categorized by primary risk exposure as of October 31, 2023 (amounts in thousands):

	Liability Deriva	atives value
	Total Value	
	at	Equity
	October 31, 2023	Contracts *,(1)

- (2) Presented on Statement of Operations as Change in Unrealized Appreciation (Depreciation) of: Futures.

## H. Line of Credit and Interfund Lending Program:

The Fund, together with other Dimensional-advised portfolios, has entered into a \$500 million uncommitted, unsecured discretionary line of credit effective April 5, 2023, with its domestic custodian bank. A line of credit with similar terms was in effect through April 5, 2023. Each portfolio is permitted to borrow, subject to its investment limitations, up to a maximum of \$250 million, as long as total borrowings under the line of credit do not exceed \$500 million in the aggregate. Borrowings under the line of credit are charged interest at rates agreed upon by the parties at the time of borrowing. Each portfolio is individually, and not jointly, liable for its particular advances under the line of credit. There is no commitment fee on the unused portion of the line of credit. The agreement for the discretionary line of credit may be terminated by either party at any time. The agreement for the line of credit expires on April 3, 2024.

The Fund, together with other Dimensional-advised portfolios, has also entered into an additional \$700 million unsecured line of credit with its international custodian bank effective December 28, 2022. A line of credit with similar terms was in effect through December 28, 2022. Each portfolio is permitted to borrow, subject to its investment limitations, up to the lower of one-quarter of such portfolio's net assets or \$500 million, as long as total borrowings under the line of credit do not exceed \$700 million in the aggregate. Each portfolio is individually, and not jointly, liable for its particular advances under the line of credit. Borrowings under the line of credit are charged interest at rates agreed upon by the parties at the time of borrowing. There is no commitment fee on the unused portion of the line of credit. The line of credit agreement expires on December 27, 2023.

For the year ended October 31, 2023, borrowings by the Fund under the lines of credit were as follows (amounts in thousands, except percentages and days):

	Weighted Average Interest Rate	Weighted Average Loan Balance	Number of Days Outstanding*	Interest Expense Incurred	Maximum Amount Borrowed During the Period	Outstanding Borrowings as of 10/31/2023
Dimensional Emerging						
Markets Value Fund	4.65%	\$6,303	11	\$9	\$14,112	_

<sup>\*</sup> Number of Days Outstanding represents the total of single or consecutive days during the year ended October 31, 2023, that the Fund's available line of credit was used.

Pursuant to an exemptive order issued by the SEC (the "Order"), the Fund may participate in an interfund lending program among certain portfolios managed by the Advisor (portfolios that operate as feeder funds do not participate in the program). The program allows the participating portfolios to borrow money from and loan money to each other for temporary or emergency purposes, subject to the conditions in the Order. A loan can only be made through the program if the interfund loan rate on that day is more favorable to both the borrowing and lending portfolios as compared to rates available through short-term bank loans or investments in overnight repurchase agreements and money market funds, respectively, as detailed in the Order. Further, a portfolio may participate in the program only if and to the extent that such participation is consistent with its investment objectives and limitations. Interfund loans have a maximum duration of seven days and may be called on one business day's notice.

For the year ended October 31, 2023, activity by the Fund under the interfund lending program was as follows (amounts in thousands, except percentages and days):

	Borrower or Lender	Weighted Average Interest Rate	Weighted Average Loan Balance	Number of Days Outstanding*	Interest Expense/ Income	Maximum Amount Borrowed/Loaned During the Period	Outstanding Borrowings as of 10/31/2023
Dimensional Emerging Markets Value							
Fund	Borrower	4.59%	\$51,943	5	\$33	\$66,546	_

<sup>\*</sup> Number of Days Outstanding represents the total of single or consecutive days during the year ended October 31, 2023 that the Fund utilized the interfund lending program.

## I. Affiliated Trades:

Cross trades for the year ended October 31, 2023, if any, were executed by the Fund pursuant to procedures adopted by the Board of Trustees of the Fund to ensure compliance with Rule 17a-7 under the 1940 Act. Cross trading is the buying or selling of portfolio securities between series of investment companies, or between a series of an investment company and another entity, that are or could be considered affiliates by virtue of a common investment advisor (or affiliated investment advisors), common Trustees and/or common Officers. At its regularly scheduled meetings, the CCO certifies to the Board that the 17a-7 transactions entered into by the Fund complied with the Rule 17a-7 Procedures adopted by the Board of Trustees of the Fund.

For the year ended October 31, 2023, cross trades by the Fund under Rule 17a-7 were as follows (amounts in thousands):

Portfolio	Purchases	Sales	Realized Gain (Loss)
Dimensional Emerging Markets Value Fund	\$8,796	\$2,505	\$(492)

## J. Securities Lending:

As of October 31, 2023, the Fund had securities on loan to brokers/dealers, for which the Fund received cash collateral. The Fund also received non-cash collateral consisting of short- and/or long-term U.S. Treasuries and U.S. government agency securities as follows (amount in thousands):

	Non-Cash Collateral Market Value
Dimensional Emerging Markets Value Fund	\$367,466

The Fund invests the cash collateral, as described below, and records a liability for the return of the collateral, during the period the securities are on loan. Loans of securities are expected at all times to be secured by collateral in an amount (i) equal to at least 100% of the current market value of the loaned securities with respect to securities of the U.S. government or its agencies, (ii) generally equal to 102% of the current market value of the loaned securities with respect to U.S. securities, and (iii) generally equal to 105% of the current market value of the loaned securities with respect to foreign securities. However, daily market fluctuations could cause the Fund's collateral to be lower or higher than the expected thresholds. If this were to occur, the collateral would be adjusted the next business day to ensure adequate collateralization. In the event of default or bankruptcy by the other party to the agreement, realization and/or retention of the collateral may be subject to legal proceedings. If the borrower fails to return loaned securities, cash collateral being maintained by the borrower is insufficient to cover the value of loaned securities, and such collateral insufficiency is not the result of investment losses, the lending agent has agreed to pay the amount of the shortfall to the Fund or, at the option of the lending agent, to replace the securities. In the event of the bankruptcy of the borrower, the Fund could experience delay in recovering the loaned securities or only recover cash or a security of equivalent value.

Subject to its stated investment policies, the Fund will generally invest the cash collateral received for the loaned securities in The DFA Short Term Investment Fund (the "Money Market Series"), an affiliated registered money market fund advised by the Advisor for which the Advisor receives a management fee of 0.05% of the average daily net assets of the Money Market Series. Income received from the Money Market Series is netted with fees for securities lending and collateral investment expenses and with other payments to and from borrowers of securities. The Fund also may invest the cash collateral received for the loaned securities in securities of the U.S. government or its agencies, repurchase agreements collateralized by securities of the U.S. government or its agencies, and affiliated or unaffiliated money market funds that are registered or unregistered. For purposes of this paragraph, agencies include both agency debentures and agency mortgage-backed securities. Additionally, the Fund will be able to terminate the loan at any time and will receive reasonable interest on the loan, as well as amounts equal to any dividends, interest or, other distributions on the loaned securities. However, dividend income received from loaned securities may not be eligible for taxation at qualified dividend income rates.

The following table reflects a breakdown of transactions accounted for as secured borrowings, the gross obligation by the type of collateral pledged, and the remaining contractual maturity of those transactions as of October 31, 2023 (amounts in thousands):

	As of October 31, 2023					
	Overnight and Continuous	<30 days	Between 30 & 90 days	>90 days	Total	
Securities Lending Transactions						
Dimensional Emerging Markets Value Fund						
Common Stocks	\$123,708	_	_	_	\$123,708	

## K. Indemnitees; Contractual Obligations:

Under the Fund's organizational documents, its Officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Fund.

In the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties that provide general indemnification. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund and/or its affiliates that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

# L. Recently Issued Accounting Standards and Regulations:

In March 2020, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2020-04, Reference Rate Reform (Topic 848) – Facilitation of the Effects of Reference Rate Reform on Financial Reporting. In January 2021, the FASB issued ASU No. 2021-01, with further amendments to Topic 848. The amendments in the ASUs provide optional temporary accounting recognition and financial reporting relief from the effect of certain types of contract modifications due to the planned discontinuation of the LIBOR and other interbank-offered based reference rates as of the end of 2021 and 2023. The ASUs were effective for certain reference rate-related contract modifications that occurred during the period March 12, 2020 through December 31, 2022. Management has reviewed the requirements and determined the adoption of these ASUs will not have a material impact on the Fund's financial statements.

In October 2022, the SEC adopted rule and form amendments requiring open-end management investment companies, including mutual funds and exchange-traded funds, to transmit concise and visually engaging semi-annual and annual reports that highlight key information, including fund expenses, performance, and holdings to shareholders. Other information, including financial statements, will no longer appear in the Fund's shareholder reports but will be available online, delivered free of charge upon request, and filed on a semi-annual basis on Form N-CSR. The rule and form amendments have a compliance date of July 24, 2024. Accordingly, the rule and form amendments will not impact the Fund until the 2024 annual shareholder reports, and will have no effect on the Fund's accounting policies or financial statements.

# M. Other:

The Fund is subject to claims and suits that arise from time to time in the ordinary course of business (for example, claw back litigation against former shareholders of portfolio companies that filed for bankruptcy, such as the now ended litigation involving The Tribune Company and the ongoing litigation involving Nine West). Although management currently believes that resolving claims against the Fund, individually or in aggregate, will not have a material adverse impact on the Fund's financial position, results of operations, or cash flows, these matters are subject to inherent uncertainties and management's view of these matters may change in the future.

# N. Subsequent Event Evaluations:

Management has evaluated the impact of all subsequent events on the Fund through the date on which the financial statements were issued and has determined that there are no subsequent events requiring recognition or disclosure in the financial statements.

To the Board of Trustees and Shareholders of Dimensional Emerging Markets Value Fund

# Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the summary schedule of portfolio holdings, of Dimensional Emerging Markets Value Fund (the "Fund") as of October 31, 2023, the related statement of operations for the year ended October 31, 2023, the statement of changes in net assets for each of the two years in the period ended October 31, 2023, including the related notes, and the financial highlights for each of the five years in the period ended October 31, 2023 (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of October 31, 2023, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period ended October 31, 2023 and the financial highlights for each of the five years in the period ended October 31, 2023 in conformity with accounting principles generally accepted in the United States of America.

## **Basis for Opinion**

These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of October 31, 2023 by correspondence with the custodian, brokers and transfer agent of the investee fund; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

/s/PricewaterhouseCoopers LLP Philadelphia, Pennsylvania December 21, 2023

We have served as the auditor of one or more investment companies in Dimensional Fund Advisors L.P. investment company group since 1981.

## **FUND MANAGEMENT**

(Unaudited)

#### **Trustees/Directors**

Each Board of Trustees/Directors (each, the "Board" and collectively, the "Boards") of The DFA Investment Trust Company ("DFAITC"), DFA Investment Dimensions Group Inc. ("DFAIDG"), Dimensional Investment Group Inc. ("DIG"), Dimensional ETF Trust ("ETF Trust"), and Dimensional Emerging Markets Value Fund ("DEM") (each, a "Fund" and collectively, the "Funds") is responsible for establishing the Funds' policies and for overseeing the management of the Funds. The Trustees/ Directors of the Funds, including all of the disinterested Trustees/Directors, have adopted written procedures to monitor potential conflicts of interest that might develop between portfolios of the Funds (the "Feeder Portfolios") that invest in certain series of DFAITC or DEM (the "Master Funds").

Each Board has four standing committees, an Audit Committee, a Nominating and Governance Committee (the "Nominating Committee"), a Mutual Funds-ETF Relations committee and an Investment Strategy Committee (the "Strategy Committee"). The Audit Committee is composed of Reena Aggarwal, George M. Constantinides, Francis A. Longstaff, Abbie J. Smith and Ingrid M. Werner. Each member of the Audit Committee is a disinterested Trustee/Director. The Audit Committee oversees the Fund's accounting and financial reporting policies and practices, the Fund's internal controls, the Fund's financial statements and the independent audits thereof and performs other oversight functions as requested by the Board. The Audit Committee recommends the appointment of each Fund's independent registered certified public accounting firm and acts as a liaison between the Fund's independent registered certified public accounting firm and the full Board. There were three Audit Committee meetings held during the fiscal year ended October 31, 2023.

Each Board's Nominating Committee is composed of Reena Aggarwal, George M. Constantinides, Douglas W. Diamond, Francis A. Longstaff, and Heather E. Tookes. Each member of the Nominating Committee is a disinterested Trustee/Director. The Nominating Committee for each Board makes recommendations for nominations of disinterested and interested members on the Board to the disinterested Board members and to the full Board. The Nominating Committee works closely with the other disinterested Trustees to evaluate a candidate's qualification for Board membership and the independence of such candidate from the Advisor and other principal service providers. The Nominating Committee also periodically reviews the Board governance practices, policies, procedures, and operations; reviews the membership of each committee of the Board; reviews and makes recommendations regarding the Independent Trustees' compensation; oversees the annual self-assessment of the Board and each committee; considers and recommends to the Board, the selection of "independent legal counsel" (as that term is defined in the 1940 Act); and monitors and considers corporate governance issues that may arise from time to time. There were two Nominating Committee meetings held during the fiscal year ended October 31, 2023.

Each Board's Strategy Committee is composed of Gerard K. O'Reilly, Douglas W. Diamond, Darrell Duffie, and Heather E. Tookes. The Strategy Committee assists the Board in carrying out its fiduciary duties with respect to the oversight of the Fund and its performance. At the request of the Board or the Advisor, the Strategy Committee (i) reviews the design of possible new series of the Fund, (ii) reviews performance of existing portfolios of the Funds and discusses and recommends possible enhancements to the portfolios' investment strategies, (iii) reviews proposals by the Advisor to modify or enhance the investment strategies or policies of each portfolio, and (iv) considers issues relating to investment services for each portfolio of the Fund. There were two Strategy Committee meetings held during the fiscal year ended October 31, 2023.

The Mutual Funds-ETF Relations Committee is comprised of George M. Constantinides, Darrell Duffie, and Ingrid M. Werner. At the request of the Board, the Mutual Funds-ETF Relations Committee (i) reviews any newly-proposed expenses to be borne by the ETFs in the Dimensional ETF Trust ("Dimensional ETFs"), portfolios in the DFA mutual fund complex ("Fund Complex") or changes to the existing expense allocations among the Dimensional ETFs, portfolios in the Fund Complex, and the Advisor, (ii) considers any conflicts of interest that may arise in the operations of the Dimensional ETFs and the portfolios in the Fund Complex, (iii) reviews and considers relevant information relating to the operations of the Dimensional ETFs, and (iv) considers asset flows and performance differences between the similarly managed mutual funds and ETFs of the Funds. There were two Mutual Funds-ETF Relations Committee meetings held during the fiscal year ended October 31, 2023.

Certain biographical information for each disinterested Trustee/Director and interested Trustee/Director of the Funds is set forth in the tables below, including a description of each Trustee/Director's experience as a Trustee/Director of the Funds and as a Director or Trustee of other funds, as well as other recent professional experience.

The statements of additional information (together, "SAI") of the Funds include additional information about each Trustee/Director. You may obtain copies of the SAI and prospectus of each Fund advised by Dimensional Fund Advisors LP by calling collect (512) 306-7400 or by mailing a request to Dimensional Fund Advisors LP, 6300 Bee Cave Road, Building One, Austin, TX 78746. Prospectuses are also available at http://us.dimensional.com.

### **VOTING PROXIES ON FUND PORTFOLIO SECURITIES**

A description of the policies and procedures that the Fund uses in voting proxies relating to securities held in the portfolio is available (1) without charge, upon request, by calling collect: (512) 306-7400; (2) from the Advisor's website at www.dimensional.com; and (3) on the SEC's website at http://www.sec.gov. Information regarding how the Advisor votes these proxies is available from the EDGAR database on the SEC's website at http://www.sec.gov and from the Advisor's website at www.dimensional.com/who-we-are/investment-stewardship and reflects the twelve-month period beginning July 1st and ending June 30th.

# TAX NOTICE TO SHAREHOLDERS

## (Unaudited)

with respect to distributions paid or expected to be paid to shareholders related to the fiscal year ended October 31, 2023. All designations are based on financial information available as of the date of this annual report and, accordingly are subject to change. For each classification below and including "Section 163(j) interest dividends" as defined in Treasury Regulation §1.163(j)-1(b)(35) and "Section 199A dividends" as defined in Treasury Regulation The following information is solely for informational purposes. Each Portfolio is designating the U.S. federal income tax character of the following items §1.199A -3(d), it is the intent of the Portfolio to designate the maximum amount permitted under the Internal Revenue Code and the regulations thereunder. For U.S. federal income tax purposes, shareholders generally must report distributions received from a Portfolio on a calendar-year basis, which therefore may include distributions with respect to portions of two fiscal years of the Portfolio. Annual statements needed by shareholders concerning the tax status of distributions received for the calendar year 2023 (e.g., IRS Form 1099-DIV) will be provided in early 2023. Shareholders should refer to these statements in preparing their calendar year 2023 tax returns. Please consult your tax advisor for the proper treatment of this information. Unless otherwise noted, the amounts in the table are expressed as a percentage of the distributions paid with respect to the fiscal year ended October 31, 2023.
